This Statement of Additional Information ("SAI") is not a prospectus. It should be read in conjunction with and is incorporated by reference into the prospectus dated August 28, 2020 ("Prospectus") for the IndexIQ Active ETF Trust (the "Trust") funds (each a "Fund" and collectively, the "Funds") listed below:

**Fund Name**

- IQ MacKay Municipal Insured ETF (MMIN)
- IQ MacKay Municipal Short Duration ETF (MMSD)
- IQ MacKay Municipal Intermediate ETF (MMIT)
- IQ Ultra Short Duration ETF (ULTR)

The Prospectus and the Funds’ Annual or Semi-Annual Reports may be obtained without charge by writing to the Trust, c/o ALPS Distributors, Inc., 1290 Broadway, Suite 1100, Denver, Colorado 80203, by calling (888) 474-7725, or by visiting the Trust’s website at nylinvestments.com/etfs.

Capitalized terms used but not defined herein have the same meaning as in the Prospectus, unless otherwise noted.

GENERAL DESCRIPTION OF THE TRUST AND THE FUNDS

The Trust was organized as a Delaware statutory trust on January 30, 2008 and is authorized to have multiple segregated series or portfolios. The Trust is an open-end management investment company registered under the Investment Company Act of 1940 (the “1940 Act”). The Trust currently consists of a number of separate investment portfolios of which three are in operation.

Each Fund is deemed to be diversified for the purposes of the 1940 Act. Other portfolios may be added to the Trust in the future. The shares of the Funds are referred to herein as “Shares.” The offering of the Shares is registered under the Securities Act of 1933 (the “Securities Act”).

The Funds are managed by IndexIQ Advisors LLC (the “Advisor”). The Advisor has been registered as an investment adviser with the Securities and Exchange Commission (the “SEC”) since August 9, 2007 and is a wholly-owned indirect subsidiary of New York Life Investment Management Holdings LLC.

The IQ MacKay Municipal Insured ETF, IQ MacKay Municipal Short Duration ETF and IQ MacKay Municipal Intermediate ETF (collectively, “the MacKay Municipal Funds”) are subadvised by Mackay Shields LLC (the “MacKay Shields”). MacKay Shields was incorporated in 1969 as an independent investment advisory firm and has been registered as an investment adviser with the SEC since 1969. The Subadvisor was privately held until 1984 when it became a wholly-owned subsidiary of New York Life.

The IQ Ultra Short Duration ETF (the “Ultra Short Fund”) is subadvised by NYL Investors LLC (“NYL Investors”). NYL Investors is a wholly owned subsidiary of New York Life. NYL Investors was established in 2014 as an independent investment advisor and previously operated as an investment division of New York Life Investments.

Each Fund offers and issues Shares at net asset value (the “NAV”) only in aggregations of a specified number of Shares (each, a “Creation Unit” or a “Creation Unit Aggregation”). The Shares of each Fund trade or are expected to trade on the NYSE Arca, Inc. (the “Exchange”). Shares will trade on the Exchange at market prices that may be below, at, or above NAV. The consideration for purchase of a Creation Unit of Shares generally consists of cash only although a Fund also reserves the right to permit or require the in-kind deposit of a designated portfolio of securities (the “Deposit Securities”) along with a specified cash payment (the “Cash Component”). Shares are redeemable only in Creation Unit Aggregations and, generally, in exchange for a basket of Deposit Securities together with a Cash Component. Creation Units are aggregations of 50,000 Shares of each Fund. In the event of the liquidation of any Fund, the Trust may lower the number of Shares in a Creation Unit.

EXCHANGE LISTING AND TRADING

There can be no assurance that the requirements of the Exchange necessary for each Fund to maintain the listing of its Shares will continue to be met. The Exchange will consider the suspension of trading and delisting of the Shares of a Fund from listing if, (i) a Fund does not comply with the Exchange’s continuous listing standards; or (ii) such other event shall occur or condition exist that, in the opinion of the Exchange, makes further trading on the Exchange inadvisable. The Exchange will remove the Shares of a Fund from listing and trading upon termination of such Fund.

The Funds’ continued listing on the Exchange or another stock exchange or market system is a condition of the exemptive relief the Funds obtained from the SEC to operate as an exchange-traded fund (“ETFs”). A Fund’s failure to be so listed would result in the termination of the Fund.

As in the case of other stocks traded on the Exchange, brokers’ commissions on transactions will be based on commission rates negotiated by an investor and his or her broker.
The Trust reserves the right to adjust the price levels of the Shares in the future to maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of each Fund.

**INVESTMENT OBJECTIVES AND POLICIES**

**Investment Objectives**

Each Fund has a distinct investment objective and policies that are distinct from the other series of the Trust. There can be no assurance that a Fund’s objective will be achieved.

All investment objectives and investment policies not specifically designated as fundamental may be changed without shareholder approval. Additional information about the Fund, its policies, and the investment instruments it may hold, is provided below.

The Funds’ share prices will fluctuate with market and economic conditions. The Funds should not be relied upon as a complete investment program.

**Investment Restrictions**

The investment restrictions set forth below have been adopted by the Board of Trustees of the Trust (the “Board”) as fundamental policies that cannot be changed with respect to a Fund without the affirmative vote of the holders of a majority (as defined in the 1940 Act) of the outstanding voting securities of the Fund. The investment objective of each Fund and all other investment policies or practices of the Fund are considered by the Trust not to be fundamental and accordingly may be changed without shareholder approval. For purposes of the 1940 Act, a “majority of the outstanding voting securities” means the lesser of the vote of (i) 67% or more of the Shares of the Fund present at a meeting, if the holders of more than 50% of the outstanding Shares of the Fund are present or represented by proxy, or (ii) more than 50% of the Shares of the Fund.

As a matter of fundamental policy, a Fund (except as to any specific Fund otherwise noted below):

A. May not invest 25% or more of its total assets in the securities of one or more issuers conducting their principal business activities in the same industry or group of industries. The Fund will not invest 25% or more of its total assets in investment companies that have a policy to invest 25% or more of their total assets in issuers conducting their principal business activities in the same industry or group of industries. This limitation does not apply to investments in securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities, or shares of investment companies. Also, for purposes of industry concentration, tax-exempt securities issued by states, municipalities and their political subdivisions are not considered to be part of any industry.

B. May borrow money, to the extent permitted by the 1940 Act, as such may be interpreted or modified by regulatory authorities having jurisdiction, from time to time.

C. May make loans as permitted under the 1940 Act, as such may be interpreted or modified by regulatory authorities having jurisdiction, from time to time.

D. May act as an underwriter of securities within the meaning of the Securities Act, to the extent permitted under the 1933 Act, as such may be interpreted or modified by regulatory authorities having jurisdiction, from time to time.

E. May purchase or sell real estate or any interest therein to the extent permitted under the 1940 Act, as such may be interpreted or modified by regulatory authorities having jurisdiction, from time to time.

F. May not purchase physical commodities or contracts regarding physical commodities, except as permitted under the 1940 Act and other applicable laws, rules and regulations, as such may be interpreted or modified by regulatory authorities having jurisdiction, from time to time.

G. May issue senior securities, to the extent permitted by the 1940 Act, as such may be interpreted or modified by regulatory authorities having jurisdiction, from time to time.

H. Each of the MacKay Municipal Funds, will invest, under normal circumstances, at least 80% of its assets in investments the income of which is exempt from federal income tax.
Unless otherwise indicated, all of the percentage limitations above and in the investment restrictions recited in the Prospectus apply only at the time of an acquisition or encumbrance of securities or assets of a Fund, except that any borrowings by a Fund that exceeds applicable limitations must be reduced to meet such limitations within the period required by the 1940 Act. Therefore, a change in the percentage that results from a relative change in values or from a change in a Fund’s assets will not be considered a violation of the Fund’s policies or restrictions. “Value” for the purposes of all investment restrictions shall mean the value used in determining a Fund’s NAV.

Additional Information Regarding Investment Restrictions

Below is additional information regarding the MacKay Municipal Funds’ investment restrictions. This information is in addition to, rather than part of, the fundamental investment restrictions themselves.

- Concentration. Although the 1940 Act does not define what constitutes “concentration” in an industry or group of industries, the staff of the SEC takes the position that any fund that invests more than 25% of its total assets in a particular industry or group of industries (other than securities issued or guaranteed by the U.S. government, its agencies or instrumentalities) is deemed to be “concentrated” in that industry or group of industries. The exclusion set forth above with respect to tax-exempt securities does not include municipal securities whose payments of interest and/or principal are dependent upon revenues derived from projects, rather than the general obligations of the municipal issuers (such as private activity and revenue bonds).

For purposes of a Fund’s industry concentration policy, the Advisor or a Subadvisor may analyze the characteristics of a particular issuer and instrument and may assign an industry classification consistent with those characteristics. The Advisor or MacKay Shields may, but need not, consider industry classifications provided by third parties.

INVESTMENT STRATEGIES AND RISKS

A discussion of the risks associated with an investment in each Fund is contained in each Fund’s Prospectus under the headings “Principal Risks,” “Description of the Principal Risks of the Funds” and “Additional Risks.” The discussion below supplements and should be read in conjunction with such sections of each Fund’s Prospectus.

General

Investment in each Fund should be made with an understanding that the value of the portfolio of securities held by such Fund may fluctuate in accordance with changes in the financial condition of the issuers of the portfolio securities, the value of common stocks or fixed-income securities generally and other factors.

Municipal Securities (The following applies to the MacKay Municipal Funds only.)

A Fund may purchase municipal securities. Municipal securities include securities issued by, or on behalf of, the District of Columbia, the states, the territories (including Puerto Rico, Guam and the U.S. Virgin Islands), commonwealths and possessions of the United States and their political subdivisions, and agencies, authorities and instrumentalities (collectively, “municipalities”). Municipal securities, which may be issued in various forms, including bonds and notes, are issued to obtain funds for various public purposes.
Municipal bonds are debt obligations issued by municipalities. Typically, the interest payable on municipal bonds is, in the opinion of bond counsel to the issuer at the time of issuance, exempt from U.S. federal income tax.

A Fund’s investments in municipal securities may be affected by political and economic developments within the applicable municipality and by the financial condition of the municipality. Certain of the issuers in which a Fund may invest have recently experienced, or may experience, significant financial difficulties and repeated credit rating downgrades. For example, Puerto Rico, in particular, has been experiencing significant financial difficulties, which have further strained Puerto Rico’s economic stagnation and fiscal challenges (including budget deficits, underfunded pensions, high unemployment, population decline, significant debt service obligations, liquidity issues, and reduced access to financial markets). The default by issuers of Puerto Rico municipal securities on their obligations under securities held by a Fund may adversely affect the Fund and cause the Fund to lose the value of its investment in such securities.

Municipal bonds include securities from a variety of sectors, each of which has unique risks. They include, but are not limited to, general obligation bonds, limited obligation bonds, and revenue bonds (including industrial development bonds issued pursuant to U.S. federal tax law). General obligation bonds are obligations involving the credit of an issuer possessing taxing power and are payable from such issuer's general revenues and not from any particular source. Limited obligation bonds are payable only from the revenues derived from a particular facility or class of facilities or, in some cases, from the proceeds of a special excise or other specific revenue source. Revenue bonds are issued for either project or enterprise financings in which the bond issuer pledges to the bondholders the revenues generated by the operating projects financed from the proceeds of the bond issuance. Revenue bonds involve the credit risk of the underlying project or enterprise (or its corporate user) rather than the credit risk of the issuing municipality. Under the U.S. Internal Revenue Code of 1986, as amended, certain limited obligation bonds are considered "private activity bonds" and interest paid on such bonds is treated as an item of tax preference for purposes of calculating U.S. federal alternative minimum tax liability. Tax exempt private activity bonds and industrial development bonds generally are also classified as revenue bonds and thus are not payable from the issuer's general revenues. The credit and quality of private activity bonds and industrial development bonds are usually related to the credit of the corporate user of the facilities. Payment of interest on and repayment of principal of such bonds are the responsibility of the corporate user (and/or any guarantor).

Some municipal bonds may be issued as variable or floating rate securities and may incorporate market-dependent liquidity features. Some longer-term municipal bonds give the investor the right to "put" or sell the security at par (face value) within a specified number of days following the investor's request—usually one to seven days. This demand feature enhances a security's liquidity by shortening its effective maturity and enables it to trade at a price equal to or very close to par. If a demand feature terminates prior to being exercised, a Fund would hold the longer-term security, which could experience substantially more volatility. Municipal bonds that are issued as variable or floating rate securities incorporating market-dependent liquidity features may have greater liquidity risk than other municipal bonds.

Some municipal bonds feature credit enhancements, such as lines of credit, letters of credit, municipal bond insurance, and standby bond purchase agreements ("SBPAs"). SBPAs include lines of credit that are issued by a third party, usually a bank, to enhance liquidity and ensure repayment of principal and any accrued interest if the underlying municipal bond should default. Municipal bond insurance, which is usually purchased by the bond issuer from a private, non-governmental insurance company, provides an unconditional and irrevocable assurance that the insured bond's principal and interest will be paid when due. Insurance does not guarantee the price of the bond or the share price of any Fund.

The credit rating of an insured bond may reflect the credit rating of the insurer, based on its claims-paying ability. The obligation of a municipal bond insurance company to pay a claim extends over the life of each insured bond. Although defaults on insured municipal bonds have historically been low and municipal bond insurers historically have met their claims, there is no assurance this will continue. A higher-than expected default rate could strain the insurer's loss reserves and adversely affect its ability to pay claims to bondholders. The number of municipal bond insurers is relatively small, and not all of them have the highest credit rating. An SBPA can include a liquidity facility that is provided to pay the purchase price of any bonds that cannot be remarshaled. The obligation of the liquidity provider (usually a bank) is only to advance funds to purchase tendered bonds that cannot be remarshaled and does not cover principal or interest under any other circumstances. The liquidity provider's obligations under the SBPA are usually subject to numerous conditions, including the continued creditworthiness of the underlying borrower or bond issuer.

Municipal bonds also include tender option bonds, which are municipal derivatives created by dividing the income stream provided by an underlying municipal bond to create two securities issued by a special-purpose trust, one short-term and one long-term. The interest rate on the short-term component is periodically reset. The short-term component has negligible interest rate risk, while the long-term component has all of the interest rate risk of the original bond. After income is paid on the short-term securities at current rates, the residual income goes to the long-term securities.

Therefore, rising short-term interest rates result in lower income for the longer-term portion, and vice versa. The longer-term components can be very volatile and may be less liquid than other municipal bonds of comparable maturity. These securities have been developed in the secondary market to meet the demand for short-term, tax-exempt securities.
Prices and yields on municipal bonds are dependent on a variety of factors, including general money-market conditions, the financial condition of the issuer, general conditions of the municipal bond market, the size of a particular offering, the maturity of the obligation and the rating of the issue. A number of these factors, including the ratings of particular issues, are subject to change from time to time. Information about the financial condition of an issuer of municipal bonds may not be as extensive as that which is made available by corporations whose securities are publicly traded. Tax Anticipation Notes are used to finance working capital needs of municipalities and are issued in anticipation of various seasonal tax revenues, to be payable from these specific future taxes. They are usually general obligations of the issuer, secured by the taxing power for the payment of principal and interest.

Municipal securities also include various forms of notes. These notes include, but are not limited to, the following types:

- Revenue anticipation notes which are issued in expectation of receipt of other kinds of revenue, such as federal revenues. They, also, are usually general obligations of the issuer.
- Bond anticipation notes which are normally issued to provide interim financial assistance until long-term financing can be arranged. The long-term bonds then provide funds for the repayment of the notes.
- Construction loan notes which are sold to provide construction financing for specific projects. After successful completion and acceptance, many projects receive permanent financing through the Federal Housing Administration ("FHA") under the FNMA or GNMA.
- Project notes which are instruments sold by HUD but issued by a state or local housing agency to provide financing for a variety of programs. They are backed by the full faith and credit of the U.S. government, and generally carry a term of one year or less.
- Short-term discount notes (tax-exempt commercial paper), which are short-term (365 days or less) promissory notes issued by municipalities to supplement their cash flow.

An entire issue of municipal securities may be purchased by one or a small number of institutional investors such as the Funds. Thus, the issue may not be said to be publicly offered. Unlike securities that must be registered under the Securities Act prior to offer and sale, unless an exemption from such registration is available, municipal securities that are not publicly offered may nevertheless be readily marketable. A secondary market may exist for municipal securities that were not publicly offered initially.

Municipal securities are subject to credit risk. Information about the financial condition of an issuer of municipal securities may not be as extensive as that which is made available by corporations whose securities are publicly traded. Obligations of issuers of municipal securities are generally subject to the provisions of bankruptcy, insolvency, and other laws affecting the rights and remedies of creditors. Congress or state legislatures may seek to extend the time for payment of principal or interest, or both, or to impose other constraints upon enforcement of such obligations. There is also the possibility that, as a result of litigation or other conditions, the power or ability of issuers to meet their obligations for the payment of interest and principal on their municipal securities may be materially affected or their obligations may be found to be invalid or unenforceable. Such litigation or conditions may from time to time have the effect of introducing uncertainties in the market for municipal securities or certain segments thereof, or of materially affecting the credit risk with respect to particular bonds. Adverse economic, business, legal, or political developments might affect all or a substantial portion of a Fund's municipal securities in the same manner.

An insolvent municipality may take steps to reorganize its debt, which might include extending debt maturities, reducing the amount of principal or interest, refinancing the debt or taking other measures that may significantly affect the rights of creditors and the value of the securities issued by the municipality and the value of a Fund’s investments in those securities. Under bankruptcy law, certain municipalities that meet specific conditions may be provided protection from creditors while they develop and negotiate plans for reorganizing their debts. U.S. bankruptcy law generally provides that individual U.S. states are not permitted to pass their own laws purporting to bind non-consenting creditors to a restructuring of a municipality’s indebtedness, and thus all such restructurings must be pursuant to Chapter 9 of the Bankruptcy Code.

Municipal bankruptcies are relatively rare, and certain provisions of U.S. bankruptcy law governing such bankruptcies are unclear and remain untested. Although Puerto Rico is a U.S. Territory, neither Puerto Rico nor its subdivisions or agencies are eligible to file under U.S. bankruptcy law in order to seek protection from creditors or restructure their debt. Although recent Puerto Rico legislation that would have allowed certain Puerto Rico public corporations to seek protection from creditors and to restructure their debt should they become insolvent has been ruled unconstitutional, the U.S. Supreme Court has agreed to review this ruling. If the U.S. Supreme Court permits municipalities or public corporations in Puerto Rico to restructure their outstanding obligations, it could adversely affect the Fund.
Municipal securities are subject to interest rate risk. Interest rate risk is the chance that security prices overall will decline over short or even long periods because of rising interest rates. Interest rate risk is higher for long-term bonds, whose prices are more sensitive to interest rate changes than are the prices of shorter-term bonds. Generally, prices of longer maturity issues tend to fluctuate more than prices of shorter maturity issues. Prices and yields on municipal securities are dependent on a variety of factors, such as the financial condition of the issuer, general conditions of the municipal securities market, the size of a particular offering, the maturity of the obligation and the rating of the issue. A number of these factors, including the ratings of particular issues, are subject to change from time to time.

Municipal bonds are subject to call risk. Call risk is the chance that during periods of falling interest rates, a bond issuer will call—or repay—a higher-yielding bond before its maturity date. Forced to reinvest the unanticipated proceeds at lower interest rates, a Fund would experience a decline in income and lose the opportunity for additional price appreciation associated with falling rates. Call risk is generally high for long-term bonds. Municipal bonds may be deemed to be illiquid as determined by or in accordance with methods adopted by the Board.

The liquidity of municipal lease obligations purchased by the Funds will be determined pursuant to guidelines approved by the Board. Factors considered in making such determinations may include: the frequency of trades and quotes for the obligation; the number of dealers willing to purchase or sell the security and the number of other potential buyers; the willingness of dealers to undertake to make a market in the security; the nature of marketplace trades; the obligation's rating; and, if the security is unrated, the factors generally considered by a rating agency. If municipal lease obligations are determined to be illiquid, then a Fund will limit its investment in these securities subject to its limitation on investments in illiquid securities.

The Tax Reform Act of 1986 limited the types and volume of municipal securities qualifying for the U.S. federal income tax exemption for interest, and the U.S. Internal Revenue Code of 1986, as amended, treats tax-exempt interest on certain municipal securities as a tax preference item included in the alternative minimum tax base for noncorporate shareholders. Further, an issuer's failure to comply with the detailed and numerous requirements imposed by the U.S. Internal Revenue Code of 1986, as amended, after bonds have been issued may cause the retroactive revocation of the tax-exempt status of certain municipal securities after their issuance. The Funds intend to monitor developments in the municipal bond market to determine whether any defensive action should be taken.

**Municipal lease obligations.** Municipal lease obligations generally are issued to support a government's infrastructure by financing or refinancing equipment or property acquisitions or the construction, expansion or rehabilitation of public facilities. In such transactions, equipment or property is leased to a state or local government, which, in turn, pays lease payments to the lessor consisting of interest and principal payments on the obligations. Municipal lease obligations differ from other municipal securities because each year the lessee's governing body must appropriate (set aside) the money to make the lease payments. If the money is not appropriated, the issuer or the lessee typically can end the lease without penalty. If the lease is cancelled, investors who own the municipal lease obligations may not be paid.

The Fund may also gain exposure to municipal lease obligations through certificates of participation, which represent a proportionate interest in the payments under a specified lease or leases.

Because annual appropriations are required to make lease payments, municipal lease obligations generally are not subject to constitutional limitations on the issuance of debt, and may allow an issuer to increase government liabilities beyond constitutional debt limits. When faced with increasingly tight budgets, local governments have more discretion to curtail lease payments under a municipal lease obligation than they do to curtail payments on other municipal securities. If not enough money is appropriated to make the lease payments, the leased property may be repossessed as security for holders of the municipal lease obligations. If this happens, there is no assurance that the property's private sector or re-leasing value will be enough to make all outstanding payments on the municipal lease obligations or that the payments will continue to be tax-free.
While cancellation risk is inherent to municipal lease obligations, the Fund believes that this risk may be reduced, although not eliminated, by its policies on the credit quality of municipal securities in which it may invest.

**Tax-exempt or qualified private activity and industrial development revenue bonds.** Tax-exempt industrial development revenue and other similar bonds are part of a category of securities sometimes known as tax-exempt or qualified private activity bonds. These bonds are typically issued by or on behalf of public authorities to finance various privately operated facilities which are expected to benefit the municipality and its residents, such as business, manufacturing, housing, sports and pollution control, as well as public facilities such as airports, mass transit systems, ports and parking. The payment of principal and interest is solely dependent on the ability of the facility's user to meet its financial obligations and the pledge, if any, of the facility or other property as security for payment. As a result, these bonds may involve a greater degree of corporate credit risk than other municipal securities.

**Insurance (The following applies to the MacKay Municipal Funds only.)**

The Fund may also invest in insured municipal securities. Normally, the underlying rating of an insured security is one of the top three ratings of Fitch, Moody's or S&P. An insurer may insure municipal securities that are rated below the top three ratings or that are unrated if the securities otherwise meet the insurer's quality standards.

The Fund will only enter into a contract to buy an insured municipal security if either permanent insurance or an irrevocable commitment to insure the municipal security by a qualified municipal bond insurer is in place. The insurance feature guarantees the scheduled payment of principal and interest, but does not guarantee (i) the market value of the insured municipal security, (ii) the value of the Fund's shares, or (iii) the Fund's distributions.

**Types of insurance.** There are three types of insurance: new issue, secondary and portfolio. A new issue insurance policy is purchased by the issuer when the security is issued. A secondary insurance policy may be purchased by the Fund after a security is issued. With both new issue and secondary policies, the insurance continues in force for the life of the security and, thus, may increase the credit rating of the security, as well as its resale value. However, in response to market conditions rating agencies have lowered their ratings on some municipal bond insurers below BBB or withdrawn ratings. In such cases the insurance is providing little or no enhancement of credit or resale value to the municipal security and the security's rating will reflect the higher of the insurer rating or the underlying rating of the security.

The Fund may buy a secondary insurance policy at any time if the investment manager believes the insurance would be in the best interest of the Fund. The Fund is likely to buy a secondary insurance policy if, in the investment manager's opinion, the Fund could sell a security at a price that exceeds the current value of the security, without insurance, plus the cost of the insurance. The purchase of a secondary policy, if available, may enable the Fund to sell a defaulted security at a price similar to that of comparable securities that are not in default. The Fund would value a defaulted security covered by a secondary insurance policy at its market value.

The Fund also may buy a portfolio insurance policy. Unlike new issue and secondary insurance, which continue in force for the life of the security, portfolio insurance only covers securities while they are held by the Fund. If the Fund sells a security covered by portfolio insurance, the insurance protection on that security ends and, thus, cannot affect the resale value of the security. As a result, the Fund may continue to hold any security insured under a portfolio insurance policy that is in default or in significant risk of default and, absent any unusual or unforeseen circumstances as a result of the portfolio insurance policy, would likely value the defaulted security, or security for which there is a significant risk of default, at the same price as comparable securities that are not in default. While a defaulted security is held in the Fund's portfolio, the Fund continues to pay the insurance premium on the security but also collects interest payments from the insurer and retains the right to collect the full amount of principal from the insurer when the security comes due.

The insurance premium the Fund pays for a portfolio insurance policy is a Fund expense. The premium is payable monthly and is adjusted for purchases and sales of covered securities during the month. If the Fund fails to pay its premium, the insurer may take action against the Fund to recover any premium payments that are due. The insurer may not change premium rates for securities covered by a portfolio insurance policy, regardless of the issuer's ability or willingness to meet its obligations.

**Qualified municipal bond insurers.** Insurance policies may be issued by a qualified municipal bond insurer. The bond insurance industry is a regulated industry. Any bond insurer must be licensed in each state in order to write financial guarantees in that jurisdiction. Regulations vary from state to state. Most regulators, however, require minimum standards of solvency and limitations on leverage and investment of assets. Regulators also place restrictions on the amount an insurer can guarantee in relation to the insurer's capital base. Neither the Fund nor the investment manager makes any representations as to the ability of any insurance company to meet its obligation to the Fund if called upon to do so.

---

9
If an insurer is called upon to pay the principal or interest on an insured security that is due for payment but that has not been paid by the issuer, the terms of payment would be governed by the provisions of the insurance policy. After payment, the insurer becomes the owner of the security, appurtenant coupon, or right to payment of principal or interest on the security and is fully subrogated to all of the Fund's rights with respect to the security, including the right to payment. The insurer's rights to the security or to payment of principal or interest are limited, however, to the amount the insurer has paid.

State regulators have from time to time required municipal bond insurers to suspend claims payments on outstanding insurance in force. Certain municipal bond insurers have withdrawn from the market. Consequently, there may be insufficient qualified bond insurers (rated BBB or better) offering insurance on new issues of municipal securities so that the Insured Fund may be unable to find sufficient insured municipal securities. These circumstances have led to a decrease in the supply of insured municipal securities and a consolidation among municipal bond insurers concentrating the insurance company credit risk on securities in the Fund's portfolio amongst fewer municipal bond insurers. Due to this consolidation, events involving one or more municipal bond insurers could have a significant adverse effect on the value of the securities insured by the insurer and on the municipal markets as a whole.

**Bonds** *(The following applies to the IQ Ultra Short Duration ETF only.)*

The Fund invests a substantial portion of its assets in corporate bonds. A bond is an interest-bearing security issued by a U.S. or non-U.S. company. The issuer of a bond has a contractual obligation to pay interest at a stated rate on specific dates and to repay principal (the bond’s face value) periodically or on a specified maturity date. Bonds generally are used by corporations and governments to borrow money from investors. The investment return of corporate bonds reflects interest earned on the security and changes in the market value of the security. The market value of a corporate bond may be affected by changes in the market rate of interest, the credit rating of the corporation, the corporation’s performance and perceptions of the corporation in the market place. There is a risk that the issuers of the securities may not be able to meet their obligations on interest or principal payments at the time called for by an instrument.

An issuer may have the right to redeem or “call” a bond before maturity, in which case the Fund may have to reinvest the proceeds at lower market rates. Similarly, the Fund may have to reinvest interest income or payments received when bonds mature, sometimes at lower market rates. Most bonds bear interest income at a “coupon” rate that is fixed for the life of the bond. The value of a fixed-rate bond usually rises when market interest rates fall, and falls when market interest rates rise. Accordingly, a fixed-rate bond’s yield (income as a percent of the bond’s current value) may differ from its coupon rate as its value rises or falls. When an investor purchases a fixed-rate bond at a price that is greater than its face value, the investor is purchasing the bond at a premium. Conversely, when an investor purchases a fixed-rate bond at a price that is less than its face value, the investor is purchasing the bond at a discount. Fixed rate bonds that are purchased at a discount pay less current income than securities with comparable yields that are purchased at face value, with the result that prices for such fixed-rate securities can be more volatile than prices for such securities that are purchased at face value. Other types of bonds bear interest at an interest rate that is adjusted periodically. Interest rates on “floating rate” or “variable rate” bonds may be higher or lower than current market rates for fixed-rate bonds of comparable quality with similar final maturities. Because of their adjustable interest rates, the value of “floating rate” or “variable rate” bonds fluctuates much less in response to market interest rate movements than the value of fixed-rate bonds, but their value may decline if their interest rates do not rise as much, or as quickly, as interest rates in general. The Fund may treat some of these bonds as having a shorter maturity for purposes of calculating the weighted average maturity of its investment portfolio. Generally, prices of higher quality issues tend to fluctuate less with changes in market interest rates than prices of lower quality issues and prices of longer maturity issues tend to fluctuate more than prices of shorter maturity issues. Bonds may be senior or subordinated obligations. Senior obligations generally have the first claim on a corporation’s earnings and assets and, in the event of liquidation, are paid before subordinated obligations. Bonds may be unsecured (backed only by the issuer’s general creditworthiness) or secured (backed by specified collateral).
The value of the debt securities generally will fluctuate depending on a number of factors, including, among others, changes in the perceived creditworthiness of the issuers of those securities, movements in interest rates, and the maturity of the debt security. Generally, a rise in interest rates will reduce the value of fixed-income securities, and a decline in interest rates will increase the value of fixed-income securities. Longer term debt securities generally pay higher interest rates than do shorter term debt securities but also may experience greater price volatility as interest rates change.

**Ratings** *(The following applies to the IQ Ultra Short Duration ETF only.)*

The Fund may invest in bonds that do not have an investment-grade rating. Bonds rated lower than Baa3 by Moody’s or BBB- by Standard & Poor’s Ratings Services or Fitch are considered below investment-grade quality and are obligations of issuers that are considered predominantly speculative with respect to the issuer’s capacity to pay interest and repay principal according to the terms of the obligation and, therefore, carry greater investment risk, including the possibility of issuer default and bankruptcy and increased market price volatility. Such securities (“lower-rated securities”) are commonly referred to as “junk bonds” and are subject to a substantial degree of credit risk. Lower-rated securities are often issued by smaller, less creditworthy companies or by highly leveraged (indebted) firms, which are generally less able than more financially stable firms to make scheduled payments of interest and principal. The risks posed by securities issued under such circumstances are substantial. Bonds rated below investment-grade tend to be less marketable than higher-quality bonds because the market for them is less broad. The ratings of fixed-income securities by a credit rating agency are a generally accepted barometer of credit risk. They are, however, subject to certain limitations from an investor's standpoint. The rating of an issuer is heavily weighted by past developments and does not necessarily reflect future conditions. There is frequently a lag between the time a rating is assigned and the time it is updated. In addition, there may be varying degrees of difference in credit risk of securities in each rating category. In the event independent rating agencies assign different ratings to the same security, if the security is rated by three rating agencies the IQ Ultra Short Duration ETF will apply the middle rating and if the security is rated by two agencies the IQ Ultra Short Duration ETF will apply the lower rating.

**Floating and Variable Rate Securities** *(The following applies to the IQ Ultra Short Duration ETF only.)*

Floating and variable rate securities provide for a periodic adjustment in the interest rate paid on the obligations. The terms of such obligations must provide that interest rates are adjusted periodically based upon an interest rate adjustment index as provided in the respective obligations. The adjustment intervals may be regular and range from daily up to annually, or may be based on an event, such as a change in the prime rate.

Some variable or floating rate securities are structured with liquidity features such as (1) put options or tender options that permit holders (sometimes subject to conditions) to demand payment of the unpaid principal balance plus accrued interest from the issuers or certain financial intermediaries or (2) auction rate features, remarketing provisions, or other maturity-shortening devices designed to enable the issuer to refinance or redeem outstanding debt securities (market-dependent liquidity features). Variable or floating rate securities that include market-dependent liquidity features may have greater liquidity risk than other securities, due to (for example) the failure of a market-dependent liquidity feature to operate as intended (as a result of the issuer's declining creditworthiness, adverse market conditions, or other factors) or the inability or unwillingness of a participating broker/dealer to make a Secondary Market for such securities. As a result, variable or floating rate securities that include market-dependent liquidity features may lose value and the holders of such securities may be required to retain them until the later of the repurchase date, the resale date, or maturity.

The interest rate on a floating rate debt instrument (“floater”) is a variable rate that is tied to another interest rate, such as a money market index or Treasury bill rate. The interest rate on a floater may reset periodically, typically every three to six months, or whenever a specified interest rate changes. While, because of the interest rate reset feature, floaters provide the Fund with a certain degree of protection against rises in interest rates; the Fund will participate in any declines in interest rates as well.

**Futures Contracts** *(The following applies to the IQ Ultra Short Duration ETF only.)*

The Fund may enter into futures contracts. Futures contracts provide for the future sale by one party and purchase by another party of a specified amount of a specific instrument or index at a specified future time and at a specified price. Assets committed to futures contracts will be segregated by the custodian to the extent required by law.
During periods of credit market turmoil or when the aggregate futures contract notional amount needed by the Fund is relatively small given the level of the Fund’s net assets, the Fund may have only one or a few counterparties. In such circumstances, the Fund will be exposed to greater counterparty risk. Moreover, the Fund may be unable to enter into any futures contract on terms that make economic sense (e.g., they may be too costly). To the extent that the Fund is unable to enter into any futures contracts, it may not be able to meet its investment objective. If the Fund is unable to enter into futures contracts, it may engage in other types of derivative transactions, although the added costs and higher asset segregation requirements of these other derivatives may adversely affect the Fund’s ability to meet its investment objective.

**Lending of Portfolio Securities (The following applies to the IQ Ultra Short Duration ETF only.)**

The Fund may lend portfolio securities constituting up to 33 1/3% of its total assets (as permitted by the 1940 Act). Under present regulatory policies, such loans may be made to institutions, such as brokers or dealers, pursuant to agreements requiring the loans to be continuously secured by collateral in cash, securities issued or guaranteed by the U.S. Government or one of its agencies or instrumentailities, irrevocable bank letters of credit (upon consent of the Board) or any combination thereof, marked to market daily, at least equal to the market value of the securities loaned. Cash received as collateral for securities lending transactions may be invested in liquid, short-term investments approved by the Advisor.

Investing the collateral subjects the Fund to risks, and the Fund will be responsible for any loss that may result from its investment of the borrowed collateral. The Fund will have the right to terminate a loan at any time and recall the loaned securities within the normal and customary settlement time for securities transactions.

For the duration of a loan, the Fund will continue to receive the equivalent of the interest or dividends paid by the issuer on the securities loaned and will also receive compensation from investment of the collateral. These events could also trigger adverse tax consequences for the Fund.

The Fund will generally not have the right to vote securities during the existence of the loan, but the Advisor may call the loan to exercise the Fund’s voting or consent rights on material matters affecting the Fund’s investment in such loaned securities. As with other extensions of credit there are risks of delay in recovering, or even loss of rights in, the collateral and loaned securities should the borrower of the securities fail financially.

Loans will be made only to firms deemed creditworthy, and when the consideration which can be earned from securities loans is deemed to justify the attendant risk. The creditworthiness of a borrower will be considered in determining whether to lend portfolio securities and will be monitored during the period of the loan. It is intended that the value of securities loaned by the Fund will not exceed one-third of the value of the Fund’s total assets (including the loan collateral). Loan collateral (including any investment of the collateral) is not subject to the percentage limitations stated elsewhere in this SAI or the Prospectus regarding investing in fixed-income securities and cash equivalents.

**Money Market Instruments**

A Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis, when it would be more efficient or less expensive for a Fund to do so, or as collateral for financial instruments, for liquidity purposes, or to earn interest. The instruments in which a Fund may invest include: (1) short-term obligations issued by the U.S. government; (2) negotiable certificates of deposit ("CDs"), fixed time deposits and bankers’ acceptances of U.S. and foreign banks and similar institutions; (3) commercial paper; (4) repurchase agreements; and (5) money market mutual funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker’s acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

**Tax Risks (This applies to IQ Ultra Short Duration ETF only.)**

As with any investment, you should consider how your investment in Shares of the Fund will be taxed. The tax information in the Prospectus and this SAI is provided as general information. You should consult your own tax professional about the tax consequences of an investment in Shares of the Fund.
Cyber Security and Disruptions in Operations

With the increasing use of the Internet and technology in connection with the Funds’ operations, the Funds have become potentially more susceptible to greater operational and information security risks resulting from breaches in cyber security. Cyber incidents can result from unintentional events (such as an inadvertent release of confidential information) or deliberate attacks by insiders or third parties, including cyber criminals, competitors, nation-states and “hacktivists,” and can be perpetrated by a variety of complex means, including the use of stolen access credentials, malware or other computer viruses, ransomware, phishing, structured query language injection attacks, and distributed denial of service attacks, among other means. Cyber security breaches include, without limitation, infection by computer viruses and unauthorized access to the Funds’ systems through “hacking” or other means for the purpose of misappropriating assets or sensitive information, corrupting data, or causing operations to be disrupted. Cyber security breaches may also occur in a manner that does not required gaining unauthorized access, such as denial-of-service attacks or situations where authorized individuals intentionally or unintentionally release confidential information stored on the Funds’ system. A cyber security breach may cause disruptions and impact the Funds’ business operations, which could potentially result in financial losses, inability to determine a Fund’s NAV, impediments to trading, the inability of shareholders to transact business, violation of applicable law, regulatory penalties and/or fines, compliance and other costs. The Funds and their shareholders could be negatively impacted as a result. Further, substantial costs may be incurred in order to prevent future cyber incidents.

The Funds and their shareholders could be negatively impacted as a result. Further, substantial costs may be incurred in order to prevent future cyber incidents. In addition, because the Funds work closely with third-party service providers (e.g., custodians and unaffiliated subadvisors), indirect cyber security breaches at such third-party service providers may subject a Fund’s shareholders to the same risks associated with direct cyber security breaches. Further, indirect cyber security breaches at an issuer of securities in which the Funds invest may similarly negatively impact a Fund's shareholders because of a decrease in the value of these securities.

While the Funds have established risk management systems designed to reduce the risks associated with cyber security breaches, there can be no assurances that such measures will be successful particularly since the Funds do not control the cyber security systems of issuers or third-party service providers. The Funds and their respective shareholders could be negatively impacted as a result.

Liquidation of Funds

The Board may determine to close and liquidate a Fund at any time, which may have adverse consequences for shareholders. In the event of the liquidation of a Fund, shareholders will receive a liquidating distribution in cash or in-kind equal to their proportionate interest in the Fund. A liquidating distribution may be a taxable event to shareholders, resulting in a gain or loss for tax purposes, depending upon a shareholder's basis in his or her Shares of the Fund. A shareholder of a liquidating Fund will be entitled to any refund or reimbursement of expenses born, directly or indirectly, by the shareholder (such as sales loads, account fees, or fund expenses), and a shareholder may receive an amount in liquidation less than the shareholder’s original investment.

**MANAGEMENT**

**Board Responsibilities.** The business of the Trust is managed under the direction of the Board. The Board has considered and approved contracts, as described herein, under which certain companies provide essential management and administrative services to the Trust. The day-to-day business of the Trust, including the day-to-day management of risk, is performed by the service providers of the Trust, such as the Advisor, Subadvisor, Distributor and Administrator. The Board is responsible for overseeing the Trust’s service providers and, thus, has oversight responsibility with respect to the risk management performed by those service providers. Risk management seeks to identify and eliminate or mitigate the potential effects of risks such as events or circumstances that could have material adverse effects on the business, operations, shareholder services, investment performance or reputation of the Trust or the Funds. The Board’s role in risk management oversight begins before the inception of an investment portfolio, at which time the Advisor and Subadvisor present the Board with information concerning the investment objectives, strategies and risks of the investment portfolio. Additionally, the Advisor and Subadvisor provide the Board with an overview of, among other things, the respective firm’s investment philosophy, brokerage practices and compliance infrastructure. Thereafter, the Board oversees the risk management of the investment portfolio’s operations, in part, by requesting periodic reports from and otherwise communicating with various personnel of the service providers, including the Trust’s Chief Compliance Officer and the independent registered public accounting firm of the Trust. The Board and, with respect to identified risks that relate to its scope of expertise, the Audit Committee of the Board, oversee efforts by management and service providers to manage risks to which the Funds may be exposed.
Under the overall supervision of the Board and the Audit Committee (discussed in more detail below), the service providers to the Trust employ a variety of processes, procedures and controls to identify risks relevant to the operations of the Trust and the Funds to lessen the probability of their occurrence and/or to mitigate the effects of such events or circumstances if they do occur. Each service provider is responsible for one or more discrete aspects of the Trust’s business and, consequently, for managing the risks associated with that activity.

The Board is responsible for overseeing the nature, extent and quality of the services provided to the Funds by the Advisor and Subadvisor and receives information about those services at its regular meetings. In addition, on at least an annual basis, in connection with its consideration of whether to renew the Advisory Agreement with the Advisor and the Subadvisory Agreement with the Subadvisor, the Board receives detailed information from the Advisor and the Subadvisor. Among other things, the Board regularly considers each of the Advisor’s and Subadvisor’s adherence to each Fund’s investment restrictions and compliance with various policies and procedures of the Trust and with applicable securities regulations. The Board also reviews information about each Fund’s performance and investments.

The Trust’s Chief Compliance Officer meets regularly with the Board to review and discuss compliance and other issues. At least annually, the Trust’s Chief Compliance Officer provides the Board with a report reviewing the adequacy and effectiveness of the Trust’s policies and procedures and those of its service providers, including the Advisor and Subadvisor. The report addresses the operation of the policies and procedures of the Trust and each service provider since the date of the last report; material changes to the policies and procedures since the date of the last report; any recommendations for material changes to the policies and procedures; and material compliance matters since the date of the last report.

The Board receives reports from the Trust’s service providers regarding operational risks, portfolio valuation and other matters. Annually, the independent registered public accounting firm reviews with the Audit Committee its audit of the financial statements of the Funds, focusing on major areas of risk encountered by the Trust and noting any significant deficiencies or material weaknesses in the Trust’s internal controls.

The Board recognizes that not all risks that may affect the Funds can be identified, that it may not be practical or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve each Fund’s goals, and that the processes, procedures and controls employed to address certain risks may be limited in their effectiveness. Moreover, despite the periodic reports the Board receives and the Board’s discussions with the service providers to the Trust, it may not be made aware of all of the relevant information of a particular risk. Most of the Trust’s investment management and business affairs are carried out by or through the Advisor and other service providers each of which has an independent interest in risk management but whose policies and the methods by which one or more risk management functions are carried out may differ from the Trust’s and each other’s in the setting of priorities, the resources available or the effectiveness of relevant controls. As a result of the foregoing and other factors, the Board’s risk management oversight is subject to substantial limitations.

Additionally, as required by Rule 22e-4 under the 1940 Act, the Trust has implemented a written liquidity risk management program and related procedures (“Liquidity Program”) that is reasonably designed to assess and manage the Fund’s “liquidity risk” (defined by the SEC as the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of remaining investors’ interests in the Fund). The Liquidity Program is reasonably designed to assess and manage the Fund’s liquidity risk. The Board, including a majority of the Independent Trustees, approved the designation of IndexIQ Advisors as the Liquidity Program’s Administrator. The Board will review, no less frequently than annually, a written report prepared by the Liquidity Program’s Administrator that addresses the operation of the Liquidity Program and assesses its adequacy and effectiveness of implementation.

The Board also benefits from other risk management resources and functions within New York Life, such as its risk management personnel and internal auditor department. The Board recognizes that it is not possible to identify all of the risks that may affect the Fund or to develop processes and controls to mitigate or eliminate all risks and their possible effects, and that it may be necessary to bear certain risks (such as investment risks) to achieve the Fund’s investment objectives. The Board may, at any time and in its discretion, change the manner in which it conducts risk oversight.
Members of the Board and Officers of the Trust. Set forth below are the names, years of birth, position with the Trust, term of office, portfolios supervised and the principal occupations and other directorships for a minimum of the last five years of each of the persons currently serving as members of the Board and as Executive Officers of the Trust. Also included below is the term of office for each of the Executive Officers of the Trust. The members of the Board serve as Trustees for the life of the Trust or until retirement, removal, or their office is terminated pursuant to the Trust’s Declaration of Trust.

Reena Aggarwal, an Independent Trustee, is Chair of the Board of Trustees. Three of the Trustees, Reena Aggarwal, Michael Pignataro and Paul Schaeffer, and their immediate family members have no affiliation or business connection with the Advisor or the Funds’ principal underwriter or any of their affiliated persons and do not own any stock or other securities issued by the Advisor or the Funds’ principal underwriter. These Trustees are not Interested Persons of the Trust and are referred to herein as “Independent Trustees.” Kirk Lehneis (the “Interested Trustee”) is an interested person of the Trust as that term is defined under Section 2(a)(19) of the 1940 Act because of his affiliation with the Advisor.

There is an Audit Committee and Nominating Committee of the Board, each of which is chaired by an Independent Trustee and comprised solely of Independent Trustees. The Committee chair for each is responsible for running the Committee meeting, formulating agendas for those meetings, and coordinating with management to serve as a liaison between the Independent Trustees and management on matters within the scope of the responsibilities of such Committee as set forth in its Board- approved charter. There is a Valuation Committee, which is comprised of the Independent Trustees and representatives of the Advisor to take action in connection with the valuation of portfolio securities held by a Fund in accordance with the Board- approved Valuation Procedures. The Board has determined that this leadership structure is appropriate given the specific characteristics and circumstances of the Funds. The Board made this determination in consideration of, among other things, the fact that the Independent Trustees constitute a majority of the Board, the assets under management of the Funds, the number of portfolios overseen by the Board and the total number of trustees on the Board.

</table>

(1) The address of each Trustee or officer is c/o IndexIQ Advisors, 51 Madison Avenue, New York, New York 10010.

(2) Trustees and Officers serve until their successors are duly elected and qualified.

(3) The Fund is part of a “fund complex” as defined in the 1940 Act. The fund complex includes all open-end funds (including all of their portfolios) advised by the Advisor and any funds that have an investment advisor that is an affiliated person of the Advisor.

(4) Mr. Lehneis is an “interested person” of the Trust (as that term is defined in the 1940 Act) because of his affiliations with the Advisor.

The Board met five times during the fiscal year ended April 30, 2020.
Description of Standing Board Committees

Audit Committee. The principal responsibilities of the Audit Committee are the appointment, compensation and oversight of the Trust’s independent auditors, including the resolution of disagreements regarding financial reporting between Trust management and such independent auditors. The Audit Committee’s responsibilities include, without limitation, to (i) oversee the accounting and financial reporting processes of the Trust and its internal control over financial reporting and, as the Committee deems appropriate, to inquire into the internal control over financial reporting of certain third-party service providers; (ii) oversee the quality and integrity of each funds’ financial statements and the independent audits thereof; (iii) oversee, or, as appropriate, assist Board oversight of, the Trust’s compliance with legal and regulatory requirements that relate to the Trust’s accounting and financial reporting, internal control over financial reporting and independent audits; (iv) approve prior to appointment the engagement of the Trust’s independent auditors and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Trust’s independent auditors; and (v) act as a liaison between the Trust’s independent auditors and the full Board. The Board has adopted a written charter for the Audit Committee. All of the Independent Trustees serve on the Trust’s Audit Committee. During the fiscal year ended April 30, 2020, the Audit Committee met three times.

Nominating Committee. The Nominating Committee has been established to: (i) assist the Board in matters involving mutual fund governance and industry practices; (ii) select and nominate candidates for appointment or election to serve as Trustees who are not “interested persons” of the Trust or its Advisor or distributor (as defined by the 1940 Act); and (iii) advise the Board of Trustees on ways to improve its effectiveness. All of the Independent Trustees serve on the Nominating Committee. As stated above, each Trustee holds office for an indefinite term until the occurrence of certain events. In filling Board vacancies, the Nominating Committee will consider nominees recommended by shareholders. Nominee recommendations should be submitted to the Trust at its mailing address stated in the Fund’s Prospectus and should be directed to the attention of the IndexIQ Active ETF Trust Nominating Committee. During the fiscal year ended April 30, 2020, the Nominating Committee met one time.

Valuation Committee. The Valuation Committee shall oversee the implementation of the Trust’s Valuation Procedures. The Valuation Committee shall make fair value determinations on behalf of the Board as specified in the Valuation Procedures. The Valuation Committee has appointed the Advisor Fair Valuation Committee to deal in the first instance with questions that arise or cannot be resolved under the Valuation Procedures. All of the Independent Trustees serve on the Trust’s Valuation Committee. During the fiscal year ended April 30, 2020, the Valuation Committee met four times.

Individual Trustee Qualifications

The Trust has concluded that each of the Trustees should serve on the Board because of their ability to review and understand information about the Trust and the Funds provided to them by management, to identify and request other information they may deem relevant to the performance of their duties, to question management and other service providers regarding material factors bearing on the management and administration of the Funds, and to exercise their business judgment in a manner that serves the best interests of each funds’ shareholders. The Trust has concluded that each of the Trustees should serve as a Trustee based on their own experience, qualifications, attributes and skills as described below. The Trust has concluded that Ms. Aggarwal should serve as trustee of the Trust and as an audit committee financial expert because of the experience she has gained as a professor of finance, deputy dean at Georgetown University’s McDonough School of Business and Director of the Georgetown Center for Financial Markets and Policy, her service as trustee for another mutual fund family, the experience she has gained serving as trustee of the Funds since 2008 and her general expertise with respect to financial matters and accounting principles.
The Trust has concluded that Mr. Pignataro should serve as trustee of the Trust and as an audit committee financial expert because of the experience he has gained as a businessman and, in particular, his prior service in the financial services industry as a Director of Credit Suisse Asset Management and Chief Financial Officer of the Credit Suisse Funds.

The Trust has concluded that Mr. Schaeffer should serve as trustee of the Trust because of his experience in the financial services industry, including his experience as a director of and service provider to investment companies.

The Trust has concluded that Mr. Lehneis should serve as trustee of the Trust because of the experience he has gained as President of the MainStay Funds, Chief Operating Officer of New York Life Investment Management LLC, and President of IndexIQ Advisors, his knowledge of and experience in the financial services industry, and the experience he has gained serving as Chairman of the Board of New York Life Investment Management LLC since 2017.

Trustees’ Ownership of Shares

Listed below for each Trustee is a dollar range of securities beneficially owned by the Trustees together with the aggregate dollar range of equity securities in all registered investment companies overseen by each Trustee that are in the same family of investment companies as the Trust, as of December 31, 2019. As of the date of this SAI, the IQ MacKay Municipal Short Duration ETF has not commenced operations.

(1) The fund complex includes all operational open-end funds (including all of their portfolios) advised by the Advisor. As of the date of this SAI, the fund complex consists of the Trust’s funds and the funds of IndexIQ ETF Trust.

(2) Mr. Lehneis is an “interested person” of the Trust (as that term is defined in the 1940 Act) because of his affiliations with the Advisor.
Board Compensation

Each Independent Trustee receives from the Fund Complex, either directly or indirectly, an annual retainer of $46,000. In addition, as the Chair of the Board, Ms. Aggarwal receives an annual stipend of $35,000; as Audit Committee chair, Mr. Pignataro receives an annual stipend of $10,000; and as Valuation Committee chair, Mr. Schaeffer receives an annual stipend of $10,000. In addition, the Independent Trustees are reimbursed for all reasonable travel expenses relating to their attendance at the Board Meetings. The following table sets forth certain information with respect to the compensation of each Trustee for the fiscal year ended April 30, 2020:

¹ The fund complex includes all operational open-end funds (including all of their portfolios) advised by the Advisor. As of the date of this SAI, the fund complex consists of the Trust’s funds and the funds of IndexIQ ETF Trust.

² Mr. Lehneis is an “interested person” of the Trust (as that term is defined in the 1940 Act) because of his affiliations with the Advisor.

Code of Ethics

The Trust, its Advisor, Subadvisor and principal underwriter have each adopted a code of ethics under Rule 17j-1 of the 1940 Act that permit personnel subject to their particular codes of ethics to invest in securities, including securities that may be purchased or held by the Fund.

PROXY VOTING POLICIES

The Board believes that the voting of proxies on securities held by the Funds is an important element of the overall investment process. As such, the Board has delegated responsibility for decisions regarding proxy voting for securities held by each series of the Trust to the Advisor. Where a Fund has retained the services of a Subadvisor to provide day-to-day portfolio management for a Fund, the Advisor may delegate proxy voting authority to the Subadvisor, provided that, as specified in the Advisor’s Proxy Voting Policies and Procedures, the Subadvisor has demonstrated that its proxy voting policies and procedures are consistent with the Advisor’s Proxy Voting Policies and Procedures or are otherwise implemented in the best interests of the Advisor’s clients and appear to comply with governing regulations. A Fund may revoke all or part of this delegation (to the Advisor and/or a Subadvisor as applicable) at any time by a vote of the Board. The Advisor has delegated proxy-voting authority to each Fund’s Subadvisor. A summary of the Subadvisors’ proxy voting policies and procedures is included in Appendix A to this Statement of Additional Information. The Board will periodically review each series’ proxy voting record.

The Trust is required to disclose annually the Funds’ complete proxy voting record on Form N-PX covering the period July 1 through June 30 and file it with the SEC no later than August 31 of each year. The Fund’s Form N-PX will be available at no charge upon request by calling 1-888-474-7725. It will also be available on the SEC’s website at www.sec.gov.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

Although the Trust does not have information concerning the beneficial ownership of shares held in the names of Depository Trust Company (“DTC”) participants (“DTC Participants”), as of July 31, 2020 the name and percentage ownership of each DTC Participant that owned of record 5% or more of the outstanding shares of a Fund is set forth in the table below. As of the date of this SAI, the IQ MacKay Municipal Short Duration ETF had not yet commenced operations and information is not presented for the Fund.

MANAGEMENT SERVICES

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Management.”

Investment Advisor

IndexIQ Advisors LLC, the Advisor, serves as investment advisor to the Funds and has overall responsibility for the general management and administration of the Trust, pursuant to the Investment Advisory Agreement between the Trust and the Advisor (the “Advisory Agreement”). Under the Advisory Agreement, the Advisor, subject to the supervision of the Board provides an investment program for each Fund and is responsible for the retention of subadvisors to manage the investment of each Fund’s assets in conformity with the stated investment policies of each Fund if the Advisor does not provide these services directly. The Advisor is responsible for the supervision of the Subadvisor and its management of the investment portfolio of each of the Funds. The Advisor also arranges for the provision of distribution, subadvisory, transfer agency, custody, administration and all other services necessary for the Funds to operate.

The Advisory Agreement will remain in effect with respect to the Funds from year to year provided such continuance is specifically approved at least annually by (i) the vote of a majority of the Funds’ outstanding voting securities or a majority of the Trustees of the Trust, and (ii) the vote of a majority of the Independent Trustees of the Trust, cast in person at a meeting called for the purpose of voting on such approval.

In addition to providing advisory services, under the Advisory Agreement, the Advisor also: (i) supervises all non-advisory operations of the Funds; (ii) provides personnel to perform such executive, administrative and clerical services as are reasonably necessary to provide effective administration of the Funds; (iii) arranges for (a) the preparation of all required tax returns, (b) the preparation and submission of reports to existing shareholders, (c) the periodic updating of prospectuses and statements of additional information and (d) the preparation of reports to be filed with the SEC and other regulatory authorities; (iv) maintains the records of the Funds; and (v) provides office space and all necessary office equipment and services.

Section 15(a) of the 1940 Act requires that all contracts pursuant to which persons serve as investment advisors to investment companies be approved by shareholders. As interpreted, this requirement also applies to the appointment of subadvisors to the Fund. The Advisor and the Funds have obtained an exemptive order (the “Order”) from the SEC permitting the Advisor, on behalf of the Funds and subject to the approval of the Board, including a majority of the Independent Trustees of the Board, to hire or terminate unaffiliated subadvisors and to modify any existing or future subadvisory agreement with unaffiliated subadvisors without shareholder approval. This authority is subject to certain conditions. The Funds will notify shareholders and provide them with certain information required by the Order within 90 days of hiring a new subadvisor. The Funds’ sole shareholder has approved the use of the Order.

The Advisory Agreement will terminate automatically if assigned (as defined in the 1940 Act). The Advisory Agreement is also terminable with respect to the Funds at any time without penalty by the Board of Trustees of the Trust or by vote of a majority of the outstanding voting securities of each Fund on 60 days’ written notice to the Advisor or by the Advisor on 60 days’ written notice to the Trust.

Pursuant to the Advisory Agreement, the Advisor is entitled to receive a fee, payable monthly, at the annual rate for the Fund based on a percentage of its average daily net assets, as follows:

<table>

As of the date of this SAI, the IQ MacKay Municipal Short Duration ETF has not commenced operations and has not incurred any advisory fees under the Advisory Agreement.
Expense Limitation Agreement

The Advisor has entered into an Expense Limitation Agreement (the “Expense Limitation Agreement”) with the Funds under which it has agreed, until August 31, 2021, to waive or reduce its fees and to assume other expenses of each Fund in an amount that limits “Total Annual Fund Operating Expenses” (exclusive of interest, taxes, brokerage fees and commissions, dividends paid on short sales, acquired fund fees and expenses, and extraordinary expenses, if any, and payments, if any, under the Rule 12b-1 Plan) to an amount not more than a percentage of the average daily net assets of a Fund as follows:

<td>0.24%</td>
</tr>
</tbody>
</table>

The Advisor is permitted to recoup from a Fund previously waived fees or reimbursed expenses for those years from date of such fee waiver or expense reimbursement, as long as such recoupment does not cause such Fund’s operating expenses to exceed the expense cap set forth in the Expense Limitation Agreement or any then applicable expense limit.

The Advisor currently expects that the contractual agreement will continue from fiscal year-to-fiscal year, provided such continuance is approved by the Board on behalf of each Fund. The terms of the Expense Limitation Agreement may be revised upon renewal. The Board may terminate the Expense Limitation Agreement at any time. The Advisor may also terminate the Expense Limitation Agreement at the end of the then-current term upon not less than 90 days’ notice to the Trust.

The Advisor may voluntarily waive any portion of its advisory fee from time to time, and may discontinue or modify any such voluntary limitations in the future at its discretion.

As described above, the Advisor has agreed, through August 31, 2021, to waive fees and reimburse expenses of the Funds. For the last three fiscal years ended April 30, the Advisor waived or reimbursed the following amounts:

<table>
<thead>

As of the date of this SAI, the IQ MacKay Municipal Short Duration ETF has not commenced operations.
Subadvisors

MacKay Shields LLC

MacKay Shields LLC, located at 1345 Avenue of the Americas, New York, New York 10105, serves as investment subadvisor to the IQ MacKay Municipal Insured ETF, IQ MacKay Municipal Intermediate ETF and IQ MacKay Municipal Short Duration ETF (the “Municipal Funds”) pursuant to the Investment Subadvisory Agreement between the Advisor and MacKay Shields (the “Subadvisory Agreement”). As of June 30, 2020, MacKay Shields managed approximately $134.19 billion in assets. Pursuant to the Subadvisory Agreement, the Subadvisor is entitled to receive a fee from the Advisor, payable monthly, at the annual rate based on a percentage of each Municipal Fund’s average daily net assets as follows:

<table>
<thead>
<tr>
<th>Fund Name</th>

NYL Investors LLC

NYL Investors LLC (“NYL Investors” or “Subadvisor”), located at 51 Madison Avenue, New York, New York 10010, serves as investment subadvisor to the IQ Ultra Short Duration ETF pursuant to the Investment Subadvisory Agreement between the Advisor and the Subadvisor (the “Subadvisory Agreement”). The Subadvisor is responsible for placing purchase and sale orders and shall make investment decisions for the Fund, subject to the supervision by the Advisor and the Board. For its services, the Subadvisor is compensated by the Advisor. As of June 30, 2020, NYL Investors managed approximately $267 billion in assets. Pursuant to the NYL Investors Subadvisory Agreement, the Subadvisor is entitled to receive a fee from the Advisor, payable monthly, at the annual rate of 0.108% based on a percentage of the Fund’s average daily net assets.

The Subadvisors are responsible for placing purchase and sale orders and shall make investment decisions for the Funds, subject to the supervision by the Advisor and the Board of Trustees of the Trust. For its services, the Subadvisors are compensated by the Advisor. Each Subadvisory Agreement will continue in effect with respect to the Funds from year to year provided such continuance is specifically approved at least annually by (i) the vote of a majority of a Fund’s outstanding voting securities or a majority of the Trustees of the Trust, and (ii) the vote of a majority of the Independent Trustees of the Trust, cast in person at a meeting called for the purpose of voting on such approval. The Subadvisory Agreements provide that the Subadvisors shall not be liable to a Fund for any error of judgment by the Subadvisors or for any loss sustained by a Fund except in the case of the Subadvisor’s willful misfeasance, bad faith, gross negligence or reckless disregard of duty. To the extent that the Advisor has agreed to waive its Advisory Fee or reimburse expenses, each Subadvisor has voluntarily agreed to waive or reimburse its fee proportionately.

A Subadvisory Agreement will terminate automatically if assigned (as defined in the 1940 Act). Each Subadvisory Agreement is also terminable with respect to each Fund at any time without penalty by the Board of Trustees of the Trust or by vote of a majority of the outstanding voting securities of a Fund on 60 days’ written notice to a Subadvisor or by a Subadvisor on 60 days’ written notice to the Advisor.

For the last three fiscal years ended April 30, the amount of the Subadvisory fees paid by the Advisor from the management fee, and the amount of the Subadvisory fees waived and/or expenses reimbursed were as follows:

<table>
<thead>
<tr>

</tbody>
</table>

As of the date of this SAI, the IQ MacKay Municipal Short Duration ETF has not commenced operations.
Portfolio Managers

Each Subadvisor acts as portfolio manager for the Funds. Subject to the supervision of the Advisor and the Board, the Subadvisors supervise and manage the investment portfolios of the Funds and direct the purchase and sale of each Fund’s investment securities. The Subadvisors utilize a team of investment professionals acting together to manage the assets of the Funds. Each portfolio management team meets regularly to review portfolio holdings and to discuss purchase and sale activity. The portfolio management teams adjust holdings in the applicable portfolio as they deem appropriate in the pursuit of a Fund’s investment objective.

The portfolio managers primarily responsible for the day-to-day management of the IQ MacKay Municipal Insured ETF, IQ MacKay Municipal Intermediate ETF and IQ MacKay Municipal Short Duration ETF are John Loffredo, Robert DiMella, Michael Petty, Frances Lewis, John Lawlor, Scott Sprauer, David Dowden, Michael Denlinger and Peter Bartlett. The portfolio managers primarily responsible for the day-to-day management of the IQ Ultra Short Duration ETF are Kenneth Sommer and Matthew Downs.

Other Accounts Managed

The Funds’ portfolio managers also have responsibility for the day-to-day management of accounts other than the Funds. Except as otherwise indicated, information regarding these other accounts, as of June 30, 2020, is set forth below.

Material Conflicts Of Interest

Because the portfolio managers may manage multiple portfolios for multiple clients, the potential for conflicts of interest exists. Each portfolio manager may manage portfolios having substantially the same investment style as the Funds. However, the portfolios managed by a portfolio manager may not have portfolio compositions identical to those of the Funds managed by the portfolio manager due, for example, to specific investment limitations or guidelines present in some portfolios or accounts, but not others. The portfolio managers may purchase securities for one portfolio and not another portfolio, and the performance of securities purchased for one portfolio may vary from the performance of securities purchased for other portfolios. A portfolio manager may place transactions on behalf of other accounts that are directly or indirectly contrary to investment decisions made on behalf of a Fund, or make investment decisions that are similar to those made for a Fund, both of which have the potential to adversely impact the Fund depending on market conditions. For example, a portfolio manager may purchase a security in one portfolio while appropriately selling that same security in another portfolio. In addition, some of these portfolios have fee structures that are or have the potential to be higher than the advisory fees paid by the Fund, which can cause potential conflicts in the allocation of investment opportunities between the Fund and the other accounts. However, the compensation structure for portfolio managers does not generally provide incentive to favor one account over another because that part of a manager’s bonus based on performance is not based on the performance of one account to the exclusion of others. There are many other factors considered in determining the portfolio managers’ bonus and there is no formula that is applied to weight the factors listed (see “Compensation for the Portfolio Managers”). In addition, current trading practices do not allow the Subadvisors to intentionally favor one portfolio over another as trades are executed as trade orders are received. Portfolios’ rebalancing dates also generally vary between fund families. Program trades created from the portfolio rebalance are executed at market on close.

Certain portfolio managers who are responsible for managing certain institutional accounts of the Subadvisor share a performance fee based on the performance of the account. These accounts are distinguishable from the Fund because they use techniques that are not permitted for the Fund, such as short sales and leveraging. To address potential conflicts of interest between the clients and the portfolio manager, the Subadvisor developed Allocation Procedures, Codes of Ethics and Policies and Procedures for Portfolio Management and Trades in Securities to assist and guide the portfolio managers and other investment personnel when faced with a conflict. Although the Subadvisor has adopted such policies and procedures to provide for equitable treatment of trading activity and to ensure that investment opportunities are allocated in a manner that is fair and appropriate, it is possible that unforeseen or unusual circumstances may arise that may require different treatment between the Fund and other accounts managed.

Compensation for the Portfolio Managers

Each Subadvisor primarily pays fixed compensation through a portfolio manager’s annual salary, which is paid in monthly installments in arrears. Salaries are set by reference to a range of factors, taking account of seniority and responsibilities and the market rate of pay for the relevant position. Annual salaries are set at competitive levels to attract and maintain the best professional talent. Variable or incentive compensation, both cash bonus and deferred awards, are a significant component of total compensation for portfolio managers at the Subadvisor. Incentive compensation received by portfolio managers is based on both quantitative and qualitative factors. This approach instills a strong sense of commitment towards the overall success of the firm. Deferred awards are provided to attract, retain, motivate and reward key personnel. As such, the Subadvisor maintains a phantom equity plan and awards vest and pay out after several years. Thus, portfolio managers share in the results and success of the firm. The Subadvisor maintains an employee benefit program, including health and non-health insurance, and a 401k defined contribution plan for all of its employees regardless of their job title, responsibilities or seniority.

Ownership of Securities

The portfolio managers do not own Shares of the Funds.

OTHER SERVICE PROVIDERS

Fund Administrator, Custodian, Transfer Agent and Securities Lending Agent

The Bank of New York Mellon (“BNY Mellon”) serves as the Funds’ administrator, custodian, transfer agent and securities lending agent. BNY Mellon’s principal address is 240 Greenwich Street, New York, New York 10286. Under the Fund Administration and Accounting Agreement, BNY Mellon provides necessary administrative, legal, tax, accounting services, and financial reporting for the maintenance and operations of the Trust and each Fund. In addition, BNY Mellon makes available the office space, equipment, personnel and facilities required to provide such services.

BNY Mellon supervises the overall administration of the Trust and the Funds, including, among other responsibilities, assisting in the preparation and filing of documents required for compliance by the Funds with applicable laws and regulations and arranging for the maintenance of books and records of the Funds. BNY Mellon provides persons satisfactory to the Board to serve as officers of the Trust.

BNY Mellon is the principal operating subsidiary of The Bank of New York Mellon Corporation.
BNY Mellon serves as custodian of the Funds’ assets (the “Custodian”). Under the Custody Agreement with the Trust, BNY Mellon maintains in separate accounts cash, securities and other assets of the Trust and the Funds, keeps all necessary accounts and records, and provides other services. BNY Mellon is required, upon order of the Trust, to deliver securities held by BNY Mellon and to make payments for securities purchased by the Trust for the Funds. Under the Custody Agreement, BNY Mellon is also authorized to appoint certain foreign custodians or foreign custody managers for Fund investments outside the U.S.

The Custodian has agreed to (1) make receipts and disbursements of money on behalf of the Funds; (2) collect and receive all income and other payments and distributions on account of each Fund’s portfolio investments; (3) respond to correspondence from Fund shareholders and others relating to its duties; and (4) make periodic reports to each Fund concerning the Funds’ operations. The Custodian does not exercise any supervisory function over the purchase and sale of securities.

BNY Mellon serves as transfer agent and dividend paying agent for the Funds (the “Transfer Agent”). The Transfer Agent has agreed to (1) issue and redeem Shares of the Funds; (2) make dividend and other distributions to shareholders of the Funds; (3) respond to correspondence by Fund shareholders and others relating to its duties; (4) maintain shareholder accounts; and (5) make periodic reports to the Funds.

As compensation for the foregoing services, BNY Mellon receives certain out of pocket costs, transaction fees and asset based fees, which are accrued daily and paid monthly by the Trust.

For the last three fiscal years ended April 30, the fees paid by each Fund to BNY Mellon for the foregoing services were:

<table>

BNY Mellon also serves as the Trust’s securities lending agent pursuant to a Securities Lending Authorization Agreement. As compensation for providing securities lending services, BNY Mellon receives a portion of the income earned by each Fund on collateral investments in connection with the lending program. For the fiscal year ended April 30, 2020, the Funds did not participate in the securities lending program.

**Distributor**

ALPS Distributors, Inc., the Distributor, is located at 1290 Broadway, Suite 1100, Denver, Colorado 80203. The Distributor is a broker-dealer registered under the Securities Exchange Act of 1934 (the “Exchange Act”), and a member of the Financial Industry Regulatory Authority (“FINRA”). NYLIFE Distributors LLC has entered into a Services Agreement with ALPS to market the Funds.

Shares will be continuously offered for sale by the Trust through the Distributor only in whole Creation Units, as described in the section of this SAI entitled “Purchase and Redemption of Creation Units.” The Distributor also acts as an agent for the Trust. The Distributor will deliver a prospectus to authorized participants purchasing Shares in Creation Units and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor has no role in determining the investment policies of the Funds or which securities are to be purchased or sold by the Advisor.

As compensation for the foregoing services, the Distributor receives certain out of pocket costs and per Fund flat fees, which are accrued daily and paid monthly by the Advisor.

The Board of Trustees has adopted a Distribution and Service Plan pursuant to Rule 12b-1 under the 1940 Act. In accordance with its Distribution and Service Plan, each Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year to finance activities primarily intended to result in the sale of Creation Units of each Fund or the provision of investor services. No Rule 12b-1 fees are currently paid by the Funds and there are no plans to impose these fees. However, in the event Rule 12b-1 fees are charged in the future, they will be paid out of the respective Fund’s assets, and over time these fees will increase the cost of your investment and they may cost you more than certain other types of sales charges.
Under the Service and Distribution Plan, and as required by Rule 12b-1, the Trustees will receive and review after the end of each calendar quarter a written report provided by the Distributor of the amounts expended under the Plan, if any, and the purpose for which such expenditures were made.

The Advisor and its affiliates may, out of their own resources, pay amounts to third parties for distribution or marketing services on behalf of the Funds. The making of these payments could create a conflict of interest for a financial intermediary receiving such payments.

Independent Registered Public Accounting Firm

PricewaterhouseCoopers LLP, located at 300 Madison Avenue, New York, NY 10017, serves as the independent registered public accounting firm to the Trust. PricewaterhouseCoopers LLP will perform the annual audit of the Funds’ financial statements.

Ernst & Young LLP, located at 5 Times Square, New York, New York 10036, serves as tax advisor to the Trust and will prepare the Funds' federal, state and excise tax returns, and advise the Trust on matters of accounting and federal and state income taxation.

Legal Counsel

Chapman and Cutler LLP, located at 1717 Rhode Island Avenue, N.W., Washington, D.C. 20036, serves as legal counsel to the Trust and the Funds.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Subject to the general supervision by the Board, the Advisor, and the Subadvisors is responsible for decisions to buy and sell securities for the Funds, the selection of brokers and dealers to effect the transactions, which may be affiliates of the Advisor or the Subadvisors, and the negotiation of brokerage commissions. The Funds may execute brokerage or other agency transactions through registered broker-dealers who receive compensation for their services in conformity with the 1940 Act, the Exchange Act, and the rules and regulations thereunder. Compensation may also be paid in connection with riskless principal transactions (on Nasdaq or over-the-counter securities and securities listed on an exchange) and agency Nasdaq or over-the-counter transactions executed with an electronic communications network or an alternative trading system.

The Funds will give primary consideration to obtaining the most favorable prices and efficient executions of transactions in implementing trading policy. Consistent with this policy, when securities transactions are traded on an exchange, the Funds’ policy will be to pay commissions which are considered fair and reasonable without necessarily determining that the lowest possible commissions are paid in all circumstances. The Advisor believes that a requirement always to seek the lowest possible commission cost could impede effective portfolio management and preclude the Funds from obtaining a high quality of brokerage services. In seeking to determine the reasonableness of brokerage commissions paid in any transaction, the Advisor will rely upon its experience and knowledge regarding commissions generally charged by various brokers and on its judgment in evaluating the brokerage and research services received from the broker effecting the transaction. Such determinations will be necessarily subjective and imprecise, as in most cases an exact dollar value for those services is not ascertainable.

The Advisor and Subadvisor do not consider sales of Shares by broker-dealers as a factor in the selection of broker-dealers to execute portfolio transactions.
On occasions when the Advisor deems the purchase or sale of a security to be in the best interest of a Fund as well as its other customers (including any other fund or other investment company or advisory account for which the Advisor acts as investment advisor or investment subadvisor), the Advisor, to the extent permitted by applicable laws and regulations, may aggregate the securities to be sold or purchased for a Fund with those to be sold or purchased for such other customers in order to obtain the best net price and most favorable execution under the circumstances. In such event, allocation of the securities so purchased or sold, as well as the expenses incurred in the transaction, will be made by the Advisor in the manner it considers to be equitable and consistent with its fiduciary obligations to the Funds and such other customers. In some instances, this procedure may adversely affect the price and size of the position obtainable for the Funds.

During the fiscal year ended April 30, 2020, the Funds did not engage in any securities transactions with brokers that were affiliated with the Funds, Advisor, Subadvisor or distributor or brokers which provided research services to the Funds.

As of the date of this SAI, the IQ MacKay Municipal Short Duration ETF has not commenced operations and therefore, has not entered into securities transactions.

DISCLOSURE OF PORTFOLIO HOLDINGS

Portfolio Disclosure Policy

The Trust has adopted a Portfolio Holdings Policy (the “Policy”) designed to govern the disclosure of Fund portfolio holdings and the use of material non-public information about Fund holdings. The Policy applies to all officers, employees and agents of the Funds, including the Advisor and the Subadvisors. The Policy is designed to ensure that the disclosure of information about each Fund’s portfolio holdings is consistent with applicable legal requirements and otherwise in the best interest of each Fund.

As ETFs, information about each Fund’s portfolio holdings is made available on a daily basis in accordance with the provisions of any Order of the SEC applicable to the Exchange and other applicable SEC regulations, orders and no-action relief. Such information typically reflects all or a portion of a Fund’s anticipated portfolio holdings as of the next Business Day (as defined in the section entitled “Purchase and Redemption of Creation Units”). This information is used in connection with the Creation and Redemption process and is disseminated on a daily basis through the facilities of the Exchange, the National Securities Clearing Corporation (the “NSCC”) and/or third party service providers.

Each Fund will disclose on the Funds’ website (nylinvestments.com/etfs) at the start of each Business Day the identities and quantities of the securities and other assets held by each Fund that will form the basis of the Fund’s calculation of its NAV on that Business Day. The portfolio holdings so disclosed will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on the Business Day. Online disclosure of such holdings is publicly available at no charge.

Daily access to each Fund’s portfolio holdings is permitted to personnel of the Advisor, the Subadvisors and the Distributor and the Funds’ administrator, custodian and accountant and other agents or service providers of the Trust who have need of such information in connection with the ordinary course of their respective duties to the Funds. The Funds’ Chief Compliance Officer may authorize disclosure of portfolio holdings.

Each Fund will disclose its complete portfolio holdings schedule in public filings with the SEC on a quarterly basis, based on the Fund’s fiscal year, within sixty (60) days of the end of the quarter, and will provide that information to shareholders, as required by federal securities laws and regulations thereunder.

No person is authorized to disclose a Fund’s portfolio holdings or other investment positions except in accordance with the Policy. The Trust’s Board reviews the implementation of the Policy on a periodic basis.

INDICATIVE INTRA-DAY VALUE

The approximate value of the Fund’s investments on a per-Share basis, the Indicative Intra-Day Value, or IIV, is disseminated every 15 seconds during hours of trading on the NYSE Arca. The IIV should not be viewed as a “real-time” update of NAV because the IIV may not be calculated in the same manner as NAV, which is computed once per day.

Solactive AG, an independent third party calculator calculates the IIV for the Fund during hours of trading on the NYSE Arca by dividing the “Estimated Fund Value” as of the time of the calculation by the total number of outstanding Shares of that Fund. “Estimated Fund Value” is the sum of the estimated amount of cash held in the Fund’s portfolio, the estimated amount of accrued interest owed to the Fund and the estimated value of the securities held in the Fund’s portfolio, minus the estimated amount of the Fund’s liabilities. The IIV will be calculated based on the same portfolio holdings disclosed on the Trust’s website.

The Fund provides the independent third party calculator with information to calculate the IIV, but the Fund is not involved in the actual calculation of the IIV and is not responsible for the calculation or dissemination of the IIV. The Fund makes no warranty as to the accuracy of the IIV.
ADDITIONAL INFORMATION CONCERNING SHARES

Organization and Description of Shares of Beneficial Interest

The Trust is a Delaware statutory trust and registered investment company. The Trust was organized on January 30, 2008, and has authorized capital of an unlimited number of shares of beneficial interest of no par value which may be issued in more than one class or series.

Under Delaware law, the Trust is not required to hold an annual shareholders meeting if the 1940 Act does not require such a meeting. Generally, there will not be annual meetings of Trust shareholders. If requested by shareholders of at least 10% of the outstanding Shares of the Trust, the Trust will call a meeting of the Trust’s shareholders for the purpose of voting upon the question of removal of a Trustee and will assist in communications with other Trust shareholders. Shareholders holding two-thirds of Shares outstanding may remove Trustees from office by votes cast at a meeting of Trust shareholders or by written consent.

When issued, Shares are fully paid, non-assessable, redeemable and are freely transferable; provided, however, that Shares may not be redeemed individually, but only in Creation Units. The Shares do not have preemptive rights or cumulative voting rights, and none of the Shares have any preference to conversion, exchange, dividends, retirements, liquidation, redemption or any other feature. Shares have equal voting rights, except that, if the Trust creates additional funds, only Shares of that fund may be entitled to vote on a matter affecting that particular fund. Trust shareholders are entitled to require the Trust to redeem Creation Units if such shareholders are Authorized Participants. The Declaration of Trust confers upon the Board the power, by resolution, to alter the number of Shares constituting a Creation Unit or to specify that Shares of the Trust may be individually redeemable. The Trust reserves the right to adjust the stock prices of Shares to maintain convenient trading ranges for investors. Any such adjustments would be accomplished through stock splits or reverse stock splits which would have no effect on the net assets of the Funds.

The Trust’s Declaration of Trust disclaims liability of the shareholders or the officers of the Trust for acts or obligations of the Trust which are binding only on the assets and property of the Trust. The Declaration of Trust provides for indemnification by the Trust for all loss and expense of the Funds’ shareholders held personally liable for the obligations of the Trust. The risk of a Trust’s shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Funds themselves would not be able to meet the Trust’s obligations and this risk should be considered remote. If a Fund does not grow to a size to permit it to be economically viable, the Fund may cease operations. In such an event, shareholders may be required to liquidate or transfer their Shares at an inopportune time and shareholders may lose money on their investment.

Book Entry Only System

The Depository Trust Company (“DTC”) will act as securities depository for the Shares. The Shares of the Funds are represented by global securities registered in the name of DTC or its nominee and deposited with, or on behalf of, DTC. Except as provided below, certificates will not be issued for Shares.

DTC has advised the Trust as follows, DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt and money market instruments (from over 100 countries). DTC was created to hold securities of its participants (the “DTC Participants”) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic computerized book-entry transfers and pledges in accounts of DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organization. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is a holding company for DTC, the NSCC and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. More specifically, DTCC is owned by a number of its DTC Participants and by the New York Stock Exchange, Inc., the NYSE Alternext U.S. (formerly known as the American Stock Exchange LLC) and FINRA.
Access to DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (“Indirect Participants”). DTC agrees with and represents to DTC Participants that it will administer its book-entry system in accordance with its rules and bylaws and requirements of law. Beneficial ownership of Shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in Shares (owners of such beneficial interests are referred to herein as “Beneficial Owners”) will be shown on, and the transfer of ownership will be effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of Shares. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. Such laws may impair the ability of certain investors to acquire benefits interests in Shares.

Beneficial Owners of Shares will not be entitled to have Shares registered in their names, will not receive or be entitled to receive physical delivery of certificates in definitive form and are not considered the registered holders of the Shares. Accordingly, each Beneficial Owner must rely on the procedures of DTC, DTC Participants and any Indirect Participants through which such Beneficial Owner holds its interest in order to exercise any rights of a holder of Shares. The Trust understands that under existing industry practice, in the event the Trust requests any action of holders of Shares, or a Beneficial Owner desires to take any action that DTC, as the record owner of all outstanding Shares, is entitled to take, DTC would authorize the DTC Participants to take such action and that the DTC Participants would authorized the Indirect Participants and Beneficial Owners acting through such DTC Participants to take such action and would otherwise act upon the instructions of Beneficial Owners owning through them. DTC, through its nominee Cede & Co., is the record owner of all outstanding Shares.

Conveyance of all notices, statements and other communications to Beneficial Owners will be effected as follows. DTC will make available to the Trust upon request and for a fee to be charged to the Trust a listing of the Shares holdings of each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding Shares, directly or indirectly, through such DTC Participant. The Trust will provide each such DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participants a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements. Beneficial Owners may wish to take certain steps to augment the transmission to them of notices of significant events with respect to Shares by providing their names and addresses to the DTC registrar and request that copies of notices by provided directly to them.

Distributions of Shares shall be made to DTC or its nominee, Cede & Co., as the registered holder of all Shares. DTC or its nominee, upon receipt of any such distributions, shall immediately credit DTC Participants’ accounts with payments in amounts proportionate to their respective beneficial interests in Shares as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of Shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a “street name,” and will be the responsibility of such DTC Participants. The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such Shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants.

30
DTC may determine to discontinue providing its service with respect to shares at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action either to find a replacement for DTC to perform its functions at a comparable cost, or if such replacement is unavailable, to issue and deliver printed certificates representing ownership of Shares, unless the Trust makes other arrangements with respect thereto satisfactory to the Exchange.

DTC rules applicable to DTC Participants are on file with the SEC. More information about DTC can be found at www.dtcc.com and www.dtc.org.

PURCHASE AND REDEMPTION OF CREATION UNITS

Creation

The Trust issues and sells Shares of the Fund only in Creation Units on a continuous basis on any Business Day (as defined below) through the Distributor at the Shares’ NAV next determined after receipt of an order in proper form. The Distributor processes purchase orders only on a day that the Exchange is open for trading (a “Business Day”). The Exchange is open for trading Monday through Friday except for the following holidays: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

Deposit of Securities and Deposit or Delivery of Cash

The consideration for purchase of a Creation Unit of Shares of the Fund generally consists of cash only (including the appropriate Transaction Fee). However, the Fund also reserves the right to permit or require the in-kind deposit of Deposit Securities constituting a representation of a Fund’s portfolio, along with the Cash Component, computed as described below, and the appropriate Transaction Fee (collectively, the “Fund Deposit”) as consideration for the purchase of a Creation Unit.

The Cash Component of a Fund Deposit serves to compensate the Trust or the Authorized Participant, as applicable, for any differences between the NAV per Creation Unit and the Deposit Amount (as defined below). The Cash Component of a Fund Deposit is an amount equal to the difference between the NAV of the Shares (per Creation Unit) and the “Deposit Amount,” an amount equal to the market value of the Deposit Securities. If the Cash Component of a Fund Deposit is a positive number (i.e., the NAV per Creation Unit exceeds the Deposit Amount), the Authorized Participant will deliver the Cash Component. If the Cash Component of a Fund Deposit is a negative number (i.e., the NAV per Creation Unit is less than the Deposit Amount), the Authorized Participant will receive the Cash Component.

The Custodian through the NSCC (see the section of this SAI entitled “Purchase and Redemption of Creation Units—Creation—Procedures for Creation of Creation Units”), makes available on each Business Day, prior to the opening of business on the Exchange (currently 9:30 a.m. Eastern time), the list of the name and the required number of shares of each Deposit Security to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for the Fund. This Fund Deposit is applicable, subject to any adjustments as described below, to orders to effect creations of Creation Units of the Fund until such time as the next-announced composition of the Deposit Securities is made available.

The identity and number of shares of the Deposit Securities required for a Fund Deposit for a Fund changes from time to time In addition, the Trust reserves the right to permit or require the substitution of an amount of cash (that is a “cash in lieu” amount) to be added to the Cash Component to replace any Deposit Security that may not be available in sufficient quantity for delivery or that may not be eligible for transfer through the systems of DTC or the Clearing Process (discussed below) or for other similar reasons. The Trust also reserves the right to permit or require a “cash in lieu” amount where the delivery of Deposit Securities by the Authorized Participant (as described below) would be restricted under the securities laws or where delivery of Deposit Securities to the Authorized Participant would result in the disposition of Deposit Securities by the Authorized Participant becoming restricted under the securities laws, and in certain other situations.

In addition to the list of names and number of securities constituting the current Deposit Securities of a Fund Deposit, the Custodian, through the NSCC, also makes available on each Business Day the estimated Cash Component, effective through and including the previous Business Day, per outstanding Creation Unit of a Fund.
Procedures for Creation of Creation Units

All orders to create Creation Units must be placed with the Distributor either (1) through Continuous Net Settlement System of the NSCC (the “Clearing Process”), a clearing agency that is registered with the SEC, by a “Participating Party,” i.e., a broker-dealer or other participant in the Clearing Process; or (2) outside the Clearing Process by a DTC Participant (see the section of this SAI entitled “Additional Information Concerning Shares — Book Entry Only System”). In each case, the Participating Party or the DTC Participant must have executed an agreement with the Distributor with respect to creations and redemptions of Creation Units (a “Participant Agreement”); and accepted by the Transfer Agent; such parties are collectively referred to as “APs” or “Authorized Participants.” Investors should contact the Distributor for the names of Authorized Participants. All Shares, whether created through or outside the Clearing Process, will be entered on the records of DTC in the name of Cede & Co. for the account of a DTC Participant.

Except as described below, and in all cases subject to the terms of the applicable Participant Agreement, all orders to create Creation Units of a Fund generally must be received by the Distributor by the time specified in the Participant Agreement and the applicable order form (“Order Time”) in each case on the date such order is placed for creation of Creation Units to be effected based on the NAV of Shares of such Fund as next determined after receipt of an order in proper form. Orders consisting of cash only or requesting substitution of a “cash-in-lieu” amount (collectively, “Custom Orders”), must be received by the Transfer Agent no later than the time specified in the Participant Agreement and the applicable order form. On days when the Exchange closes earlier than normal (such as the day before a holiday), a Fund may require orders to create Creation Units to be placed earlier in the day. The date on which an order to create Creation Units (or an order to redeem Creation Units, as discussed below) is placed is referred to as the “Transmittal Date.” Orders must be transmitted by an Authorized Participant by telephone, electronic order entry system or other transmission method acceptable to the Transfer Agent pursuant to procedures set forth in the Participant Agreement. Economic or market disruptions or changes, or telephone, electronic or communication failure may impede the ability to reach the Transfer Agent or an Authorized Participant.

All orders to create Creation Units from investors who are not Authorized Participants shall be placed with an Authorized Participant in the form required by such Authorized Participant. In addition, the Authorized Participant may request the investor to make certain representations or enter into agreements with respect to the order, e.g., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and, therefore, orders to create Creation Units of the Fund have to be placed by the investor’s broker through an Authorized Participant that has executed a Participant Agreement. In such cases there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement.

Those placing orders for Creation Units through the Clearing Process should afford sufficient time to permit proper submission of the order to the Distributor prior to the Order Time on the Transmittal Date. Orders for Creation Units that are effected outside the Clearing Process are likely to require transmission by the DTC Participant earlier on the Transmittal Date than orders effected using the Clearing Process. Those persons placing orders outside the Clearing Process should ascertain the deadlines applicable to DTC and the Federal Reserve Bank wire system by contacting the operations department of the broker or depository institution effectuating such transfer of the Fund Deposit.

For more information about Clearing Process and DTC, see the sections of this SAI entitled “Purchase and Redemption of Creation Units—Creation—Placement of Creation Orders Using the Clearing Process” and “Purchase and Redemption of Creation Units—Creation—Placement of Creation Orders Outside the Clearing Process.”

Placement of Creation Orders Using the Clearing Process

The Clearing Process is the process of creating or redeeming Creation Units through the Continuous Net Settlement System of the NSCC. Fund Deposits made through the Clearing Process must be delivered through a Participating Party that has executed a Participant Agreement. The Participant Agreement authorizes the Distributor to transmit through the Custodian to NSCC, on behalf of the Participating Party, such trade instructions as are necessary to effect the Participating Party’s creation order. Pursuant to such trade instructions to NSCC, the Participating Party agrees to deliver the Fund Deposit to the Trust, together with such additional information as may be required by the Distributor. An order to create Creation Units through the Clearing Process is deemed received by the Distributor on the Transmittal Date if (1) such order is received by the Distributor not later than the Order Time on such Transmittal Date and (2) all other procedures set forth in the Participant Agreement are properly followed.
Placement of Creation Orders Outside the Clearing Process

Fund Deposits made outside the Clearing Process must be delivered through a DTC Participant that has executed a Participant Agreement. A DTC Participant who wishes to place an order creating Creation Units to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that the creation of Creation Units will instead be effected through a transfer of securities and cash directly through DTC.

The Fund Deposit transfer must be ordered by the DTC Participant on the Transmittal Date in a timely fashion so as to ensure the delivery of the requisite number of Deposit Securities through DTC to the account of the Fund by no later than 11:00 a.m. Eastern time on the next Business Day following the Transmittal Date (the “DTC Cut-Off-Time”).

All questions as to the number of Deposit Securities to be delivered, and the validity, form and eligibility (including time of receipt) for the deposit of any tendered securities, will be determined by the Trust, whose determination shall be final and binding. The amount of cash equal to the Cash Component must be transferred directly to the Custodian through the Federal Reserve Bank wire transfer system in a timely manner so as to be received by the Custodian no later than 2:00 p.m. Eastern time on the next Business Day following the Transmittal Date. An order to create Creation Units outside the Clearing Process is deemed received by the Distributor on the Transmittal Date if (1) such order is received by the Distributor not later than the Order Time on such Transmittal Date and (2) all other procedures set forth in the Participant Agreement are properly followed. However, if the Custodian does not receive both the required Deposit Securities and the Cash Component by 11:00 a.m. and 2:00 p.m., Eastern time respectively, on the next Business Day following the Transmittal Date, such order will be canceled. Upon written notice to the Distributor, such canceled order may be resubmitted the following Business Day using a Fund Deposit as newly constituted to reflect the then-current Deposit Securities and Cash Component. The delivery of Creation Units so created will occur no later than the second Business Day following the day on which the purchase order is deemed received by the Distributor.

Additional transaction fees may be imposed with respect to transactions effected through a DTC participant outside the Clearing Process and in the limited circumstances in which any cash can be used in lieu of Deposit Securities to create Creation Units. See the section of this SAI entitled “Purchase and Sale of Creation Units—Creation—Creation Transaction Fee.”

Creation Units may be created in advance of receipt by the Trust of all or a portion of the applicable Deposit Securities. In these circumstances, the initial deposit will have a value greater than the NAV of the Shares on the date the order is placed in proper form since, in addition to available Deposit Securities, cash must be deposited in an amount equal to the sum of (1) the Cash Component plus (2) up to 115% of the then-current market value of the undelivered Deposit Securities (the “Additional Cash Deposit”). The order shall be deemed to be received on the Business Day on which the order is placed provided that the order is placed in proper form prior to Order Time and funds in the appropriate amount are deposited with the Custodian by 11:00 a.m. Eastern time the following Business Day. If the order is not placed in proper form by Order Time or funds in the appropriate amount are not received by 11:00 a.m. Eastern time on the next Business Day, then the order may be deemed to be canceled and the Authorized Participant shall be liable to the Trust for losses, if any, resulting therefrom. An additional amount of cash shall be required to be deposited with the Trust, pending receipt of the undelivered Deposit Securities to the extent necessary to maintain the Additional Cash Deposit with the Trust in an amount at least equal up to 115% of the daily marked-to-market value of the undelivered Deposit Securities. To the extent that undelivered Deposit Securities are not received by 1:00 p.m. Eastern time on the second Business Day following the day on which the purchase order is deemed received by the Distributor, or in the event a marked-to-market payment is not made within one Business Day following notification by the Distributor that such a payment is required, the Trust may use the cash on deposit to purchase the undelivered Deposit Securities. Authorized Participants will be liable to the Trust and the Fund for the costs incurred by the Trust in connection with any such purchases. These costs will be deemed to include the amount by which the actual purchase price of the Deposit Securities exceeds the market value of such Deposit Securities on the day the purchase order was deemed received by the Distributor plus the brokerage and related transaction costs associated with such purchases. The Trust will return any unused portion of the Additional Cash Deposit once all of the undelivered Deposit Securities have been properly received by the Custodian or purchased by the Trust and deposited into the Trust. In addition, a transaction fee will be charged in all cases. See the section of this SAI entitled “Purchase and Redemption of Creation Units—Creation—Creation Transaction Fee.” The delivery of Creation Units so created will occur no later than the second Business Day following the day on which the purchase order is deemed received by the Distributor.
Acceptance of Orders for Creation Units

The Trust reserves the absolute right to reject a creation order transmitted to it by the Distributor if: (1) the order is not in proper form; (2) the investor(s), upon obtaining the Shares ordered, would own 80% or more of the currently outstanding Shares of any Fund; (3) the Deposit Securities delivered are not as disseminated for that date by the Custodian, as described above; (4) acceptance of the Deposit Securities would have certain adverse tax consequences to the Fund; (5) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (6) acceptance of the Fund Deposit would otherwise, in the discretion of the Trust, the Advisor, or the Subadvisor, have an adverse effect on the Trust or the rights of beneficial owners; or (7) there exist circumstances outside the control of the Trust, the Custodian, the Distributor and the Advisor that make it for all practical purposes impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, the Advisor, the Subadvisor, the Distributor, DTC, NSCC, the Custodian or sub-custodian or any other participant in the creation process and similar extraordinary events. The Distributor shall notify the Authorized Participant of its rejection of the order. The Trust, the Custodian, any sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall any of them incur any liability for the failure to give any such notification. All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust and the Trust’s determination shall be final and binding.

Creation Units typically are issued on a “T+2 basis” (that is two Business Days after trade date). However, the Fund reserves the right to settle Creation Unit transactions on a basis other than T+2 in order to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and ex-dividend dates (that is the last day the holder of a security can sell the security and still receive dividends payable on the security), and in certain other circumstances.

To the extent contemplated by a Participant Agreement with the Distributor, the Trust will issue Creation Units to such Authorized Participant notwithstanding the fact that the corresponding Portfolio Deposits have not been received in part or in whole, in reliance on the undertaking of the Authorized Participant to deliver the missing Deposit Securities as soon as possible, which undertaking shall be secured by such Authorized Participant’s delivery and maintenance of collateral having a value equal to 115%, which the Advisor may change from time to time, of the value of the missing Deposit Securities in accordance with the Trust’s then-effective procedures. Such collateral must be delivered no later than 2:00 p.m., Eastern time, on the contractual settlement date. The only collateral that is acceptable to the Trust is cash in U.S. Dollars or an irrevocable letter of credit in form, and drawn on a bank, that is satisfactory to the Trust. The cash collateral posted by the Authorized Participant may be invested at the risk of the Authorized Participant, and income, if any, on invested cash collateral will be paid to that Authorized Participant. Information concerning the Trust’s current procedures for collateralization of missing Deposit Securities is available from the Transfer Agent. The Authorized Participant Agreement will permit the Trust to buy the missing Deposit Securities at any time and will subject the Authorized Participant to liability for any shortfall between the cost to the Trust of purchasing such securities and the cash collateral or the amount that may be drawn under any letter of credit.

In certain cases, Authorized Participants will create and redeem Creation Units on the same trade date. In these instances, the Trust reserves the right to settle these transactions on a net basis. All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust’s determination shall be final and binding.

Creation Transaction Fee

Authorized Participants placing a creation order will be required to pay to the Custodian a fixed transaction fee (the “Creation Transaction Fee”) to offset the transfer and other transaction costs associated with the issuance of Creation Units. The standard creation transaction fee will be the same regardless of the number of Creation Units purchased by an investor on the applicable Business Day. The Creation Transaction Fee for each creation order is $250. The Creation Transaction Fee may be waived for the Fund when the Advisor believes that waiver of the Creation Transaction Fee is in the best interest of the Fund. When determining whether to waive the Creation Transaction Fee, the Advisor considers a number of factors including, but not limited to, whether waiving the Creation Transaction Fee will: facilitate the initial launch of a Fund; reduce the cost of portfolio rebalancings; improve the quality of the secondary trading market for a Fund’s Shares and not result in a Fund’s bearing additional costs or expenses as a result of the waiver.
An additional variable fee of up to 3.00% of the NAV per Creation Unit may be imposed for (1) creations effected outside the Clearing Process and (2) cash creations (to offset the Trust’s brokerage and other transaction costs associated with using cash to purchase the requisite Deposit Securities). Actual transaction costs may vary depending on the time of day a purchase order is received or the nature of the securities to be purchased. The Advisor or Subadvisor may adjust the variable fee to ensure that the Fund collects the extra expenses associated with brokerage commissions and other expenses incurred by the Fund to acquire a Deposit Security not part of the Fund Deposit from the Authorized Participant. Authorized Participants placing a creation order are responsible for the costs of transferring the securities constituting the Deposit Securities to the account of the Trust.

Redemption

To redeem Shares directly from the Fund, an investor must be an Authorized Participant or must redeem through an Authorized Participant. The Trust redeems Creation Units on a continuous basis on any Business Day through the Distributor at the Shares’ NAV next determined after receipt of an order in proper form. The Fund will not redeem Shares in amounts less than Creation Units. Authorized Participants must accumulate enough Shares in the secondary market to constitute a Creation Unit in order to have such Shares redeemed by the Trust. There can be no assurance, however, that there will be sufficient liquidity in the public trading market at any time to permit assembly of a Creation Unit. With respect to the Fund, the Custodian, through the NSCC, makes available prior to the opening of business on the Exchange (currently 9:30 a.m. Eastern time) on each Business Day, the identity of the Fund Securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form (as described below) on that day. Fund Securities received on redemption may not be identical to Deposit Securities that are applicable to creations of Creation Units. Unless cash redemptions are available or specified for the Fund, the redemption proceeds for a Creation Unit generally consist of Fund Securities — as announced on the Business Day the request for redemption is received in proper form — plus or minus cash in an amount equal to the difference between the NAV of the Shares being redeemed, as next determined after a receipt of a redemption request in proper form, and the value of the Fund Securities (the “Cash Redemption Amount”), less a redemption transaction fee (see the section of this SAI entitled “Purchase and Redemption of Creation Units—Redemption—Redemption Transaction Fee”).

The right of redemption may be suspended or the date of payment postponed (1) for any period during which the Exchange is closed (other than customary weekend and holiday closings); (2) for any period during which trading on the Exchange is suspended or restricted; (3) for any period during which an emergency exists as a result of which disposal of the Shares of the Fund or determination of the Fund’s NAV is not reasonably practicable; or (4) in such other circumstances as is permitted by the SEC.

Deliveries of redemption proceeds by the Fund generally will be made within two Business Days (that is “T+2”). However, the Fund reserves the right to settle redemption transactions and deliver redemption proceeds on a basis other than T+2 to accommodate foreign market holiday schedules, to account for different treatment among foreign and U.S. markets of dividend record dates and dividend ex-dates (that is the last date the holder of a security can sell the security and still receive dividends payable on the security sold), and in certain other circumstances.

In the event that cash redemptions are permitted or required by the Trust, proceeds will be paid to the Authorized Participant redeeming Shares on behalf of the redeeming investor as soon as practicable after the date of redemption.

Placement of Redemption Orders Using the Clearing Process

Orders to redeem Creation Units through the Clearing Process must be delivered through an Authorized Participant that has executed a Participant Agreement. Investors other than Authorized Participants are responsible for making arrangements with an Authorized Participant for an order to redeem. An order to redeem Creation Units is deemed received by the Trust on the Transmittal Date if: (1) such order is received by the Distributor not later than Order Time on such Transmittal Date; and (2) all other procedures set forth in the Participant Agreement are properly followed. Such order will be effected based on the NAV of the relevant Fund as next determined. An order to redeem Creation Units using the Clearing Process made in proper form but received by the Distributor after the Order Time will be deemed received on the next Business Day immediately following the Transmittal Date and will be effected at the NAV determined on such next Business Day. The requisite Fund Securities and the Cash Redemption Amount will be transferred by the second NSCC business day following the date on which such request for redemption is deemed received.
Placement of Redemption Orders Outside the Clearing Process

Orders to redeem Creation Units outside the Clearing Process must be delivered through a DTC Participant that has executed the Participant Agreement. A DTC Participant who wishes to place an order for redemption of Creation Units to be effected outside the Clearing Process does not need to be a Participating Party, but such orders must state that the DTC Participant is not using the Clearing Process and that redemption of Creation Units will instead be effected through transfer of Shares directly through DTC. An order to redeem Creation Units outside the Clearing Process is deemed received by the Transfer Agent on the Transmittal Date if (1) such order is received by the Transfer Agent not later than Order Time on such Transmittal Date; (2) such order is accompanied or followed by the requisite number of Shares, which delivery must be made through DTC to the Custodian no later than the DTC Cut-Off-Time, and the Cash Redemption Amount, if owed to the Fund, which delivery must be made by 2:00 p.m. Eastern time; and (3) all other procedures set forth in the Participant Agreement are properly followed. After the Transfer Agent receives an order for redemption outside the Clearing Process, the Transfer Agent will initiate procedures to transfer the requisite Fund Securities which are expected to be delivered and the Cash Redemption Amount, if any, by the second Business Day following the Transmittal Date.

The calculation of the value of the Fund Securities and the Cash Redemption Amount to be delivered or received upon redemption (by the Authorized Participant or the Trust, as applicable) will be made by the Custodian according to the procedures set forth the section of this SAI entitled “Determination of Net Asset Value” computed on the Business Day on which a redemption order is deemed received by the Transfer Agent. Therefore, if a redemption order in proper form is submitted to the Distributor by a DTC Participant not later than Order Time on the Transmittal Date, and the requisite number of Shares of the Fund are delivered to the Custodian prior to the DTC Cut-Off-Time, then the value of the Fund Securities and the Cash Redemption Amount to be delivered or received (by the Authorized Participant or the Trust, as applicable) will be determined by the Custodian on such Transmittal Date. If, however, either (1) the requisite number of Shares of the relevant Fund are not delivered by the DTC Cut-Off-Time, as described above, or (2) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the Fund Securities and the Cash Redemption Amount to be delivered or received will be computed on the Business Day following the Transmittal Date provided that the Shares of the relevant Fund are delivered through DTC to the Custodian by 11:00 a.m. Eastern time the following Business Day pursuant to a properly submitted redemption order.

If it is not possible to effect deliveries of the Fund Securities, the Trust may in its discretion exercise its option to redeem Shares in cash, and the redeeming Authorized Participant will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash that the Trust may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its Shares based on the NAV of Shares of the relevant Fund next determined after the redemption request is received in proper form (minus a transaction fee which will include an additional charge for cash redemptions to offset the Fund’s brokerage and other transaction costs associated with the disposition of Fund Securities). The Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities, or cash in lieu of some securities added to the Cash Redemption Amount, but in no event will the total value of the securities delivered and the cash transmitted differ from the NAV. Redemptions of Shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and the Fund (whether or not otherwise permits cash redemptions) reserves the right to redeem Creation Units for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting that is subject to a legal restriction with respect to a particular security included in the Fund Securities applicable to the redemption of a Creation Unit may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming Beneficial Owner of the Shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment, beneficial ownership of Shares or delivery instructions.

Redemption Transaction Fee

Authorized Participants placing a redemption order will be required to pay to the Custodian a fixed transaction fee (the “Redemption Transaction Fee”) to offset the transfer and other transaction costs associated with the redemption of Creation Units. The standard redemption transaction fee will be the same regardless of the number of Creation Units redeemed by an investor on the applicable Business Day. The Redemption Transaction Fee for each redemption order is $250. The Redemption Transaction Fee may be waived for the Fund when the Advisor or Subadvisor believes that waiver of the Redemption Transaction Fee is in the best interest of the Fund. When determining whether to waive the Redemption Transaction Fee, the Advisor considers a number of factors including, but not limited to, whether waiving the Redemption Transaction Fee will: reduce the cost of portfolio rebalancings; improve the quality of the secondary trading market for a Fund’s Shares and not result in a Fund’s bearing additional costs or expenses as a result of the waiver.
An additional variable fee of up to 2.00% of the NAV per Creation Unit may be imposed for (1) redemptions effected outside the Clearing Process and (2) cash redemptions (to offset the Trust’s brokerage and other transaction costs associate with the sale of Fund Securities). Actual transaction costs may vary depending on the time of day a purchase order is received or the nature of the securities to be sold. The Advisor or Subadvisor may adjust the variable fee to ensure that the Fund collects the extra expenses associated with brokerage commissions and other expenses incurred by the Fund to acquire a Deposit Security not part of the Fund Deposit from the Authorized Participant. Authorized Participants placing a redemption order will also bear the costs of transferring the Fund Securities from the Trust to their account or on their order.

In order to seek to replicate the in-kind redemption order process for creation orders executed in whole or in part with cash, the Trust expects to sell, in the secondary market, the portfolio securities or settle any financial instruments that may not be permitted to be re-registered in the name of the Participating Party as a result of an in-kind redemption order pursuant to local law or market convention, or for other reasons (“Market Sales”). In such cases where the Trust makes Market Sales, the Authorized Participant will reimburse the Trust for, among other things, any difference between the market value at which the securities and/or financial instruments were sold or settled by the Trust and the cash-in-lieu amount, applicable registration fees, brokerage commissions and certain taxes.

CONTINUOUS OFFERING

The method by which Creation Units are created and traded may raise certain issues under applicable securities laws. Because new Creation Units are issued and sold by the Trust on an ongoing basis, at any point a “distribution,” as such term is used in the Securities Act, may occur. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Units after placing an order with the Distributor, breaks them down into constituent Shares, and sells such Shares directly to customers, or if it chooses to couple the creation of a supply of new Shares with an active selling effort involving solicitation of secondary market demand for Shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a categorization as an underwriter.

Broker-dealers who are not “underwriters” but are participating in a distribution (as contrasted to ordinary secondary trading transactions), and thus dealing with Shares that are part of an “unsold allotment” within the meaning of Section 4(3)(C) of the Securities Act, would be unable to take advantage of the prospectus-delivery exemption provided by Section 4(3) of the Securities Act. This is because the prospectus delivery exemption in Section 4(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. As a result, broker-dealer firms should note that dealers who are not underwriters but are participating in a distribution (as contrasted with ordinary secondary market transactions) and thus dealing with the Shares that are part of an over-allotment within the meaning of Section 4(3)(A) of the Securities Act would be unable to take advantage of the prospectus delivery exemption provided by Section 4(3) of the Securities Act. Firms that incur a prospectus delivery obligation with respect to Shares are reminded that, under Rule 153 of the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with a sale on the Exchange is satisfied by the fact that the prospectus is available at the Exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on an exchange.
DETERMINATION OF NET ASSET VALUE

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Determination of Net Asset Value (NAV).”

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding, rounded to the nearest cent. Expenses and fees, including the management fee, are accrued daily and taken into account for purposes of determining NAV. The NAV of the Fund is determined as of the close of the regular trading session on the Exchange (ordinarily 4:00 p.m., Eastern time) on each day that the Exchange is open.

Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources. In computing the Fund’s NAV, the Fund’s portfolio securities are valued based on market quotations. When market quotations are not readily available for a portfolio security the Fund must use such security’s fair value as determined in good faith in accordance with the Fund’s Fair Value Pricing Procedures which are approved by the Board.

The Fund typically values fixed-income portfolio securities using last available bid prices or current market quotations provided by dealers or prices (including evaluated prices) supplied by the Fund’s approved independent third-party pricing services. Pricing services may use matrix pricing or valuation models that utilize certain inputs and assumptions to derive values. Pricing services generally value fixed-income securities assuming orderly transactions of an institutional round lot size, but the Fund may hold or transact in such securities in smaller odd lot sizes. Odd lots often trade at different prices that may be above or below the price at which the pricing service has valued the security. An amortized cost method of valuation may be used with respect to debt obligations with sixty days or less remaining to maturity unless the Advisor determines in good faith that such method does not represent fair value.

The value of each Fund's portfolio securities is based on such securities’ closing price on local markets, when available. If a portfolio security’s market price is not readily available or does not otherwise accurately reflect the fair value of such security, the portfolio security will be valued by another method that the Advisor believes will better reflect fair value in accordance with the Trust’s valuation policies and procedures approved by the Board. Each Fund may use fair value pricing in a variety of circumstances, including but not limited to, situations when the value of a Fund’s portfolio security has been materially affected by events occurring after the close of the market on which such security is principally traded (such as a corporate action or other news that may materially affect the price of such security) or trading in such security has been suspended or halted. Accordingly, a Fund’s NAV may reflect certain portfolio securities’ fair values rather than their market prices. Fair value pricing involves subjective judgments and it is possible that a fair value determination for a portfolio security is materially different than the value that could be realized upon the sale of such security.

DIVIDENDS AND DISTRIBUTIONS

General Policies

The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Dividends, Distributions and Taxes.”

Dividends from net investment income are declared and paid at least annually by each Fund. Distributions of net realized capital gains, if any, generally are declared and paid once a year. The Trust may make distributions on a more frequent basis for each Fund to comply with the distribution requirements of the U.S. Internal Revenue Code of 1986, as amended (the “Code”), in all events in a manner consistent with the provisions of the 1940 Act. In addition, the Trust may distribute at least annually amounts representing the full dividend yield on the underlying portfolio securities of the Funds, net of expenses of the Funds, as if each Fund owned such underlying portfolio securities for the entire dividend period in which case some portion of each distribution may result in a return of capital for tax purposes for certain shareholders.

Dividends and other distributions on Shares are distributed, as described below, on a pro rata basis to Beneficial Owners of such Shares. Dividend payments are made through DTC Participants and Indirect Participants to Beneficial Owners then of record with proceeds received from the Trust. The Trust may make additional distributions to the extent necessary (i) to distribute the entire annual taxable income of the Trust, plus any net capital gains and (ii) to avoid imposition of the excise tax imposed by Section 4982 of the Code. Management of the Trust reserves the right to declare special dividends if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a “regulated investment company” under the Code or to avoid imposition of income or excise taxes on undistributed income.
Dividend Reinvestment Service

No reinvestment service is provided by the Trust. Broker-dealers may make available the DTC book-entry Dividend Reinvestment Service for use by Beneficial Owners of the Funds through DTC Participants for reinvestment of their dividend distributions. If this service is used, dividend distributions of both income and realized gains will be automatically reinvested in additional whole Shares of the Funds. Beneficial Owners should contact their broker to determine the availability and costs of the service and the details of participation therein. Brokers may require Beneficial Owners to adhere to specific procedures and timetables.

U.S. FEDERAL INCOME TAXATION

Set forth below is a discussion of certain U.S. federal income tax considerations affecting the Funds and the purchase, ownership and disposition of Shares. It is based upon the U.S. Internal Revenue Code of 1986, as amended (the “Code”), U.S. Treasury Department regulations promulgated thereunder, judicial authorities, and administrative rulings and practices, all as in effect as of the date of this SAI and all of which are subject to change, possibly with retroactive effect. The following information supplements and should be read in conjunction with the section in the Prospectus entitled “Dividends, Distributions and Taxes.”

Except to the extent discussed below, this summary assumes that a Fund’s shareholder holds Shares as capital assets within the meaning of the Code, and does not hold Shares in connection with a trade or business. This summary does not address all potential U.S. federal income tax considerations possibly applicable to an investment in Shares, and does not address the tax consequences to Fund shareholders subject to special tax rules, including, but not limited to, partnerships and the partners therein, those who hold Shares through an IRA, 401(k) plan or other tax-advantaged account, and, except to the extent discussed below, tax-exempt shareholders. This discussion does not discuss any aspect of U.S. state, local, estate, and gift, or non-U.S., tax law. This discussion is not intended or written to be legal or tax advice to any shareholder in a Fund or other person and is not intended or written to be used or relied on, and cannot be used or relied on, by any such person for the purpose of avoiding any U.S. federal tax penalties that may be imposed on such person. Prospective Fund shareholders are urged to consult their own tax advisers with respect to the specific U.S. federal, state, and local, and non-U.S., tax consequences of investing in Shares based on their particular circumstances.

The Funds have not requested and will not request an advance ruling from the U.S. Internal Revenue Service (“IRS”) as to the U.S. federal income tax matters described below. The IRS could adopt positions contrary to those discussed below and such positions could be sustained. Prospective investors should consult their own tax advisors with regard to the U.S. federal tax consequences of the purchase, ownership and disposition of Shares, as well as the tax consequences arising under the laws of any state, non-U.S. country or other taxing jurisdiction.

Tax Treatment of the Funds

In General. Each Fund intends to qualify and elect to be treated as a separate regulated investment company under the Code. As a RIC, a Fund generally will not be required to pay corporate-level U.S. federal income taxes on any ordinary income or capital gains that it distributes to its shareholders.

To qualify and remain eligible for the special tax treatment accorded to RICs, each Fund must meet certain income, asset and distribution requirements, described in more detail below. Specifically, each Fund must (i) derive at least 90% of its gross income in each taxable year from dividends, interest, payments with respect to securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, other income (including, but not limited to, gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities or currencies and net income derived from interests in qualified publicly traded partnerships (“QPTPs”) (i.e., partnerships that are traded on an established securities market or readily tradable on a secondary market, other than partnerships that derive at least 90% of their income from interest, dividends, and other qualifying RIC income described above), and (ii) diversify its holdings so that, at the end of each quarter of the Fund’s taxable year, (a) at least 50% of the value of the Fund’s assets is represented by cash, securities of other RICs, U.S. government securities and other securities, with such other securities limited, in respect of any one issuer, to an amount not greater in value than five percent of the Fund’s total assets and not greater than 10% of the outstanding voting securities of such issuer, and (b) not more than 25% of the value of its assets is invested in the securities (other than U.S. government securities or securities of other RICs) of any one issuer, any two or more issuers of which 20% or more of the voting stock of each such issuer is held by the Fund and that are determined to be engaged in the same or similar trades or businesses or related trades or businesses or in the securities of one or more QPTPs. Furthermore, each Fund must distribute annually at least 90% of the sum of (i) its “investment company taxable income” (which includes dividends, interest and net short-term capital gains) and (ii) its net tax-exempt interest income, if any.
Failure to Maintain RIC Status. If a Fund fails to qualify as a RIC for any year (subject to certain curative measures allowed by the Code), the Fund will be subject to regular corporate-level U.S. federal income tax in that year on all of its taxable income, regardless of whether the Fund makes any distributions to its shareholders. In addition, in such case, distributions will be taxable to a Fund’s shareholders generally as ordinary dividends to the extent of the Fund’s current and accumulated earnings and profits, possibly eligible for (i) in the case of an individual Fund shareholder, treatment as a qualified dividend (as discussed below) subject to tax at preferential long-term capital gains rates or (ii) in the case of a corporate Fund shareholder, a dividends-received deduction. The remainder of this discussion assumes that the Funds will qualify for the special tax treatment accorded to RICs.

Excise Tax. A Fund will be subject to a four percent excise tax on certain undistributed income generally if the Fund does not distribute to its shareholders in each calendar year at least 98% of its ordinary income for the calendar year, 98.2% of its capital gain net income for the twelve months ended October 31 of such year, plus 100% of any undistributed amounts from prior years. For these purposes, a Fund will be treated as having distributed any amount on which it has been subject to U.S. corporate income tax for the taxable year ending within such calendar year. A Fund intends to make distributions necessary to avoid this four percent excise tax, although there can be no assurance that it will be able to do so.

Exempt-Interest Dividends: Each of the Funds expects that, at the end of each quarter of its taxable year, (i) it will be a “qualified fund of funds” (i.e., a RIC at least 50% of the total assets of which is represented by interests in other RICs) or (ii) 50% or more of its assets, by value, will consist of certain obligations exempt from U.S. federal income tax under Section 103(a) of the Code (relating generally to obligations of a state or local governmental unit) (“Tax-Exempt Obligations”). As a result, each of the Funds expects to qualify to designate a portion of its dividends as “exempt-interest dividends.” “Exempt-interest dividends” generally means dividends designated by a Fund as attributable to its net interest income from Tax-Exempt Obligations. The tax consequences applicable to shareholders with respect to exempt-interest dividends are discussed below (see—Tax Treatment of Fund Shareholders).

Phantom Income. With respect to some or all of its investments, a Fund may be required to recognize taxable income in advance of receiving the related cash payment. For example, under the “wash sale” rules, a Fund may not be able to deduct currently a loss on a disposition of a portfolio security. As a result, a Fund may be required to make an annual income distribution greater than the total cash actually received during the year. Such distribution may be made from the existing cash assets of the Fund or cash generated from selling portfolio securities. The Fund may realize gains or losses from such sales, in which event the Fund’s shareholders may receive a larger capital gain distribution than they would in the absence of such transactions. (See also —“Certain Debt Instruments” below.)

Certain Debt Instruments. Some of the debt securities (with a fixed maturity date of more than one year from the date of issuance) that may be acquired by a Fund (such as zero coupon debt instruments or debt instruments with payment in-kind interest) may be treated as debt securities that are issued originally at a discount. Generally, the amount of original issue discount is treated as interest income and is included in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures.

If a Fund acquires debt securities (with a fixed maturity date of more than one year from the date of issuance) in the secondary market, such debt securities may be treated as having market discount. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt security having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the “accrued market discount” on such debt security. Market discount generally accrues in equal daily installments. A Fund may make one or more of the elections applicable to debt securities having market discount, which could affect the character and timing of recognition of income.
Some debt securities (with a fixed maturity date of one year or less from the date of issuance) that may be acquired by the Funds may be treated as having acquisition discount, or original issue, discount in the case of certain types of debt securities. Generally, the Fund will be required to include the acquisition discount, or original issue discount, in income over the term of the debt security, even though payment of that amount is not received until a later time, usually when the debt security matures. A Fund may make one or more of the elections applicable to debt securities having acquisition discount, or original issue discount, which could affect the character and timing of recognition of income.

The Funds may invest a portion of their net assets in below investment grade instruments. Investments in these types of instruments may present special tax issues for the Funds. U.S. federal income tax rules are not entirely clear about issues such as when the Fund may cease to accrue interest, OID or market discount, when and to what extent deductions may be taken for bad debts or worthless instruments, how payments received on obligations in default should be allocated between principal and income and whether exchanges of debt obligations in a bankruptcy or workout context are taxable.

Special or Uncertain Tax Consequences. A Fund’s investment or other activities could be subject to special and complex tax rules that may produce differing tax consequences, such as disallowing or limiting the use of losses or deductions, causing the recognition of income or gain without a corresponding receipt of cash, affecting the time as to when a purchase or sale of stock or securities is deemed to occur or altering the characterization of certain complex financial transactions.

Tax Treatment of Fund Shareholders

**Taxation of U.S. Shareholders**

The following is a summary of certain U.S. federal income tax consequences of the purchase, ownership and disposition of Shares applicable to “U.S. shareholders.” For purposes of this discussion, a “U.S. shareholder” is a beneficial owner of Shares who, for U.S. federal income tax purposes, is (i) an individual who is a citizen or resident of the U.S.; (ii) a corporation (or an entity treated as a corporation for U.S. federal income tax purposes) created or organized in the U.S. or under the laws of the U.S., or of any state thereof, or the District of Columbia; (iii) an estate, the income of which is includable in gross income for U.S. federal income tax purposes regardless of its source; or (iv) a trust, if (a) a U.S. court is able to exercise primary supervision over the administration of such trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) the trust has a valid election in place to be treated as a U.S. person.

**Fund Distributions.** The Funds expect to qualify to designate a portion of their dividends paid as exempt-interest dividends (as defined above). To qualify to designate a portion of its dividends as “exempt-interest dividends,” a Fund must, at the close of each quarter of its taxable year (i) be a qualified fund of funds (as defined above), or (ii) have 50% or more of its assets, by value, consist of Tax-Exempt Obligations (as defined above). In purchasing municipal securities, the Funds intend to rely on opinions of its bond counsel for each issue as to the excludability of interest on such obligations from gross income for U.S. federal income tax purposes. The Funds will not undertake independent investigations concerning the tax-exempt status of such obligations, nor do the Funds guarantee or represent that bond counsels’ opinions are correct. Tax laws enacted principally during the 1980’s not only had the effect of limiting the purposes for which Tax-Exempt Obligations could be issued and reducing the supply of such obligations from gross income for U.S. federal income tax purposes. The Funds did not undertake independent investigations concerning the tax-exempt status of such obligations, nor do the Funds guarantee or represent that bond counsels’ opinions are correct. Tax laws enacted principally during the 1980’s not only had the effect of limiting the purposes for which Tax-Exempt Obligations could be issued and reducing the supply of such obligations, but also increased the number and complexity of requirements that must be satisfied on a continuing basis in order for obligations to be and remain tax-exempt. If the issuer of a bond or a user of a bond-financed facility fails to comply with such requirements at any time, interest on the bond could become taxable, retroactive to the date the obligation was issued. In that event, a portion of a Fund’s distributions attributable to interest such Fund received on such bond for the current year and for prior years could be characterized or recharacterized as taxable income.

Exempt-interest dividends generally will be excludable from a shareholder’s gross income for U.S. federal income tax purposes. However, a shareholder is advised to consult his, her or its tax advisor with respect to whether exempt-interest dividends retain the exclusion under Section 103(a) of the Code if such shareholder would be treated as a "substantial user" or “related person” thereof under Section 147(a) of the Code with respect to any of the Tax-Exempt Obligations held by a Fund.

Although exempt-interest dividends paid by a Fund generally may be excludable by such Fund’s shareholders from their gross income for U.S. federal income tax purposes, exempt-interest dividends will be included in determining the portion, if any, of a shareholder’s social security and railroad retirement benefit payments subject to U.S. federal income tax. Furthermore, exempt-interest dividends paid by a Fund could subject certain shareholders in a Fund to the U.S. federal alternative minimum tax. For taxable years beginning before January 1, 2018, corporations were subject to an alternative minimum tax based, in part, on certain differences between taxable income as adjusted for other tax preferences and the corporation’s “adjusted current earnings” which more closely reflect a corporation’s economic income. Because an exempt-interest dividend paid by a Fund will be included in adjusted current earnings, a corporate shareholder of the Fund may be required to pay alternative minimum tax on exempt-interest dividends paid by the Fund. In addition, if the Fund invests in “private activity bonds,” a portion of the exempt-interest dividends paid by the Fund may be treated as an item of “tax preference” and, therefore, could subject certain shareholders of such Fund to the U.S. federal alternative minimum tax.
Interest on indebtedness incurred to purchase or carry Shares of a Fund that pays exempt-interest dividends will not be deductible by the shareholders for U.S. federal income tax purposes to the extent attributable to exempt-interest dividends.

Fund distributions other than exempt-interest dividends will be taxable to shareholders who are subject to U.S. federal income tax. In general, Fund distributions are subject to U.S. federal income tax when paid, regardless of whether they consist of cash or property and regardless of whether they are re-invested in Shares. However, any Fund distribution declared in October, November or December of any calendar year and payable to shareholders of record on a specified date during such month will be deemed to have been received by each Fund shareholder on December 31 of such calendar year, provided such dividend is actually paid during January of the following calendar year.

Distributions of a Fund’s net investment income and a Fund’s net short-term capital gains in excess of net long-term capital losses (collectively referred to as “ordinary income dividends”) are taxable as ordinary income to the extent of the Fund’s current and accumulated earnings and profits (subject to an exception for “qualified dividend income”, as discussed below). Corporate shareholders of a Fund may be eligible to take a dividends-received deduction with respect to some of such distributions, provided the distributions are attributable to dividends received by the Fund on stock of U.S. corporations with respect to which the Fund meets certain holding period and other requirements. To the extent designated as “capital gain dividends” by a Fund, distributions of a Fund’s net long-term capital gains in excess of net short-term capital losses (“net capital gain”) are taxable at long-term capital gain tax rates to the extent of the Fund’s current and accumulated earnings and profits, regardless of a Fund shareholder’s holding period in the Fund’s Shares. Such dividends will not be eligible for a dividends-received deduction by corporate shareholders.

A Fund’s net capital gain is computed by taking into account the Fund’s capital loss carryforwards, if any. Under the Regulated Investment Company Modernization Act of 2010, capital losses incurred in tax years beginning after December 22, 2010 can be carried forward indefinitely and retain the character of the original loss. To the extent that these carryforwards are available to offset future capital gains, it is probable that the amount offset will not be distributed to shareholders. In the event that a Fund were to experience an ownership change as defined under the Code, the Fund’s loss carryforwards, if any, may be subject to limitation.

Distributions of “qualified dividend income” (defined below) are taxed to certain non-corporate shareholders at the reduced rates applicable to long-term capital gain to the extent of the Fund’s current and accumulated earnings and profits, provided that the Fund shareholder meets certain holding period and other requirements with respect to the distributing Fund’s Shares and the distributing Fund meets certain holding period and other requirements with respect to the dividend-paying stocks. Dividends subject to these special rules, however, are not actually treated as capital gains and, thus, are not included in the computation of a non-corporate shareholder’s net capital gain and generally cannot be used to offset capital losses. The portion of distributions that a Fund may report as qualified dividend income generally is limited to the amount of qualified dividend income received by the Fund, but if for any Fund taxable year 95% or more of the Fund’s gross income (exclusive of net capital gain from sales of stock and securities) consist of qualified dividend income, all distributions of such income for that taxable year may be reported as qualified dividend income. For this purpose, “qualified dividend income” generally means income from dividends received by a Fund from a real estate investment trust (“REIT”) or another RIC generally is qualified dividend income only to the extent that the dividend distributions are made out of qualified dividend income received by such REIT or other RIC. Given their investment strategies, the Funds do not anticipate that a significant portion of their distributions will be eligible for qualifying dividend treatment.

To the extent that a Fund makes a distribution of income received by such Fund in lieu of dividends with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends-received deduction for corporate shareholders.
Distributions in excess of a Fund’s current and accumulated earnings and profits will, as to each shareholder, be treated as a tax-free return of capital to the extent of the shareholder’s tax basis in its Shares of the Fund, and as a capital gain thereafter (assuming the shareholder holds its Shares of the Fund as capital assets).

Each Fund intends to distribute its net capital gain at least annually. However, by providing written notice to its shareholders no later than 60 days after its year-end, a Fund may elect to retain some or all of its net capital gain and designate the retained amount as a “deemed distribution.” In that event, the Fund pays U.S. federal income tax on the retained net capital gain, and each Fund shareholder recognizes a proportionate share of the Fund’s undistributed net capital gain. In addition, each Fund shareholder can claim a tax credit or refund for the shareholder’s proportionate share of the Fund’s U.S. federal income taxes paid on the undistributed net capital gain and increase the shareholder’s tax basis in the Shares by an amount equal to the shareholder’s proportionate share of the Fund’s undistributed net capital gain, reduced by the amount of the shareholder’s tax credit or refund. Organizations or persons not subject to U.S. federal income tax on such net capital gain may be entitled to a refund of their pro rata share of such taxes paid by the Fund upon timely filing appropriate returns or claims for refund with the IRS.

With respect to non-corporate Fund shareholders (i.e., individuals, trusts and estates), ordinary income and short-term capital gain are taxed at a current maximum rate of 37% and long-term capital gain is taxed at a current maximum rate of 20%. Corporate shareholders are taxed at a current maximum rate of 21% on their income and gain.

In addition, high-income individuals (and certain trusts and estates) generally will be subject to a 3.8% Medicare tax on “net investment income,” in addition to otherwise applicable U.S. federal income tax. “Net investment income” generally will include dividends (including capital gain dividends) received from a Fund and net gains from the redemption or other disposition of Shares. Please consult your tax advisor regarding this tax.

If a Fund is a qualified fund of funds (as defined above) or more than 50% of the Fund’s total assets at the end of a taxable year consist of non-U.S. stock or securities, the Fund may elect to “pass through” to its shareholders certain non-U.S. income taxes paid by the Fund. This means that each shareholder will be required to (i) include in gross income, even though not actually received, the shareholder’s pro rata share of the Fund’s non-U.S. income taxes, and (ii) either take a corresponding deduction (in calculating U.S. federal taxable income) or credit (in calculating U.S. federal income tax), subject to certain limitations.

Investors considering buying Shares just prior to a distribution should be aware that, although the price of the Shares purchased at such time may reflect the forthcoming distribution, such distribution nevertheless may be taxable (as opposed to a non-taxable return of capital).

Sales of Shares. Any capital gain or loss realized upon a sale or exchange of Shares generally is treated as a long-term gain or loss if the Shares have been held for more than one year. Any capital gain or loss realized upon a sale or exchange of Shares held for one year or less generally is treated as a short-term gain or loss, except that any capital loss on the sale of Shares held for six months or less is treated as long-term capital loss to the extent that capital gain dividends were paid (or deemed to be paid) with respect to such Shares. Furthermore, a loss realized by a shareholder on the sale or exchange of Shares of a Fund with respect to which exempt-interest dividends have been paid may, to the extent of such exempt-interest dividends, be disallowed if such Shares have been held by the shareholder for six months or less at the time of their disposition. All or a portion of any loss realized upon a sale or exchange of Shares also will be disallowed under the “wash sale” rules if substantially identical shares are purchased (through reinvestment of dividends or otherwise) within a 61-day period beginning 30 days before and ending 30 days after the disposition of the Shares. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

Legislation passed by Congress requires reporting to the IRS and to taxpayers of adjusted cost basis information for “covered securities,” which generally include shares of a RIC acquired on or after January 1, 2012. Shareholders should contact their brokers to obtain information with respect to the available cost basis reporting methods and available elections for their accounts.

Creation Unit Issues and Redemptions. On an issue of Shares as part of a Creation Unit, made by means of an in-kind deposit, an Authorized Participant recognizes capital gain or loss (assuming the Authorized Participant does not hold the securities as inventory) equal to the difference between (i) the fair market value (at issue) of the issued Shares (plus any cash received by the Authorized Participant as part of the issue) and (ii) the Authorized Participant’s aggregate basis in the exchanged securities (plus any cash paid by the Authorized Participant as part of the issue). On a redemption of Shares as part of a Creation Unit where the redemption is conducted in-kind by a payment of Fund Securities, an Authorized Participant recognizes capital gain or loss (assuming the Authorized Participant does not hold the securities as inventory) equal to the difference between (i) the fair market value (at redemption) of the securities received (plus any cash received by the Authorized Participant as part of the redemption) and (ii) the Authorized Participant’s basis in the redeemed Shares (plus any cash paid by the Authorized Participant as part of the redemption). However, the IRS may assert, under the “wash sale” rules or on the basis that there has been no significant change in the Authorized Participant’s economic position, that any loss on an issue or redemption of Creation Units cannot be deducted currently.
In general, any capital gain or loss recognized upon the issue or redemption of Shares (as components of a Creation Unit) is treated either as long-term capital gain or loss, if the deposited securities (in the case of an issue) or the Shares (in the case of a redemption) have been held for more than one year, or otherwise as short-term capital gain or loss. However, any capital loss on a redemption of Shares held for six months or less is treated as long-term capital loss to the extent that capital gain dividends were paid (or deemed to be paid) with respect to such Shares. Furthermore, a loss realized on the redemption of Shares of a Fund with respect to which exempt-interest dividends have been paid may, to the extent of such exempt-interest dividends, be disallowed if such Shares have been held for six months or less at the time of their disposition.

**Reportable Transactions.** If a Fund shareholder recognizes a loss with respect to Shares of $2 million or more (for an individual Fund shareholder) or $10 million or more (for a corporate shareholder) in any single taxable year (or a greater loss over a combination of years), the Fund shareholder may be required to file a disclosure statement with the IRS. Significant penalties may be imposed upon the failure to comply with these reporting rules. Shareholders should consult their tax advisors to determine the applicability of these rules in light of their individual circumstances.

**Taxation of Non-U.S. Shareholders**

The following is a summary of certain U.S. federal income tax consequences of the purchase, ownership and disposition of Shares applicable to “non-U.S. shareholders.” For purposes of this discussion, a “non-U.S. shareholder” is a beneficial owner of Shares that is not a U.S. shareholder (as defined above) and is not an entity or arrangement treated as a partnership for U.S. federal income tax purposes. The following discussion is based on current law, and is for general information only. It addresses only selected, and not all, aspects of U.S. federal income taxation.

**Dividends.** As indicated above, a majority of each Fund’s dividend distributions to its shareholders, including its non-U.S. shareholders, is expected to be exempt from U.S. federal income tax as exempt-interest dividends. However, with respect to non-U.S. shareholders of a Fund, the Fund’s ordinary income dividends generally will be subject to U.S. federal withholding tax at a rate of 30% (or at a lower rate established under an applicable tax treaty). However, ordinary income dividends that are “interest-related dividends” or “short-term capital gain dividends” (each as defined below) and capital gain dividends generally will not be subject to U.S. federal withholding (or income) tax, provided that the non-U.S. shareholder furnishes the Fund with a completed IRS Form W-8BEN or W-8BEN-E, as applicable, (or acceptable substitute documentation) establishing the non-U.S. shareholder’s non-U.S. status and the Fund does not have actual knowledge or reason to know that the non-U.S. shareholder would be subject to withholding tax if the non-U.S. shareholder were to receive the related amounts directly rather than as dividends from the Fund. “Interest-related dividends” generally means dividends designated by a Fund as attributable to such Fund’s U.S.-source interest income, other than certain contingent interest and interest from obligations of a corporation or partnership in which such Fund is at least a 10% shareholder, reduced by expenses that are allocable to such income. “Short-term capital gain dividends” generally means dividends designated by a Fund as attributable to the excess of such Fund’s net short-term capital gain over its net long-term capital loss. Depending on its circumstances, a Fund may treat such dividends, in whole or in part, as ineligible for these exemptions from withholding.

Notwithstanding the foregoing, special rules apply in certain cases, including as described below. For example, in cases where dividend income from a non-U.S. shareholder’s investment in a Fund is effectively connected with a trade or business of the non-U.S. shareholder conducted in the U.S., the non-U.S. shareholder generally will be exempt from withholding tax, but will be subject to U.S. federal income tax at the graduated rates applicable to U.S. shareholders. Such income generally must be reported on a U.S. federal income tax return. Furthermore, such income also may be subject to the 30% branch profits tax in the case of a non-U.S. shareholder that is a corporation. In addition, if a non-U.S. shareholder is an individual who is present in the U.S. for 183 days or more during the taxable year and has a “tax home” in the U.S., any gain incurred by such shareholder with respect to his or her capital gain dividends and short-term capital gain dividends would be subject to a 30% U.S. federal income tax (which, in the case of short-term capital gain dividends, may, in certain instances, be withheld at source by a Fund).
Sales of Fund Shares. Under current law, gain on a sale or exchange of Shares generally will be exempt from U.S. federal income tax (including withholding at the source) unless (i) the non-U.S. shareholder is an individual who was physically present in the U.S. for 183 days or more during the taxable year and has a “tax home” in the U.S., in which case the non-U.S. shareholder would incur a 30% U.S. federal income tax on his capital gain, (ii) the gain is effectively connected with a U.S. trade or business conducted by the non-U.S. shareholder (in which case the non-U.S. shareholder generally would be taxable on such gain at the same graduated rates applicable to U.S. shareholders, would be required to file a U.S. federal income tax return and, in the case of a corporate non-U.S. shareholder, may also be subject to the 30% branch profits tax.

Credits or Refunds. To claim a credit or refund for any Fund-level taxes on any undistributed long-term capital gains (as discussed above) or any taxes collected through withholding, a non-U.S. Fund shareholder must obtain a U.S. taxpayer identification number and file a U.S. federal income tax return even if the non-U.S. Fund shareholder would not otherwise be required to do so.

Non-U.S. shareholders that engage in certain “wash sale” and/or substitute dividend payment transactions the effect of which is to avoid the receipt of distributions from the Fund that would be treated as gain effectively connected with a U.S. trade or business will be treated as having received such distributions.

All shareholders of the Fund should consult their tax advisers regarding the application of the rules described above.

Back-Up Withholding

A Fund (or a financial intermediary such as a broker through which a shareholder holds Shares in a Fund) may be required to report certain information on a Fund shareholder to the IRS and withhold U.S. federal income tax (“backup withholding”) at a 24% rate from taxable distributions and redemption or sale proceeds payable to the Fund shareholder if (i) the Fund shareholder fails to provide the Fund with a correct taxpayer identification number or make required certifications, or if the IRS notifies the Fund that the Fund shareholder is otherwise subject to backup withholding, and (ii) the Fund shareholder is not otherwise exempt from backup withholding. Non-U.S. shareholders can qualify for exemption from backup withholding by submitting a properly completed IRS Form W-8BEN or W-8BEN-E. Backup withholding is not an additional tax and any amount withheld may be credited against a Fund shareholder’s U.S. federal income tax liability.

Foreign Account Tax Compliance Act

The U.S. Foreign Account Tax Compliance Act (“FATCA”) generally imposes a 30% withholding tax on “withholdable payments” (defined below) made to (i) a “foreign financial institution” (“FFI”), unless the FFI enters into an agreement with the IRS to provide information regarding certain of its direct and indirect U.S. account holders and satisfy certain due diligence and other specified requirements, and (ii) a “non-financial foreign entity” (“NFFE”) unless such NFFE provides certain information to the withholding agent about certain of its direct and indirect “substantial U.S. owners” or certifies that it has no such U.S. owners. The beneficial owner of a “withholdable payment” may be eligible for a refund or credit of the withheld tax. The U.S. government also has entered into several intergovernmental agreements with other jurisdictions to provide an alternative, and generally easier, approach for FFIs to comply with FATCA.

“Withholdable payments” generally include, among other items, (i) U.S.-source interest and dividends, and (ii) gross proceeds from the sale or disposition, occurring on or after January 1, 2019, of property of a type that can produce U.S.-source interest or dividends. Proposed regulations may eliminate the requirement to withhold on gross proceeds.

A Fund may be required to impose a 30% withholding tax on withholdable payments to a shareholder if the shareholder fails to provide the Fund with the information, certifications or documentation required under FATCA, including information, certification or documentation necessary for the Fund to determine if the shareholder is a non-U.S. shareholder or a U.S. shareholder and, if it is a non-U.S. shareholder, if the non-U.S. shareholder has “substantial U.S. owners” and/or is in compliance with (or meets an exception from) FATCA requirements. The Fund will not pay any additional amounts to shareholders in respect of any amounts withheld. The Fund may disclose any shareholder information, certifications or documentation to the IRS or other parties as necessary to comply with FATCA.
The requirements of, and exceptions from, FATCA are complex. All prospective shareholders are urged to consult their own tax advisors regarding the potential application of FATCA with respect to their own situation.

Section 351

The Trust, on behalf of each Fund, has the right to reject an order for a purchase of shares of the Fund if the purchaser (or any group of purchasers) would, upon obtaining the shares so ordered, own 80% or more of the outstanding shares of a given Fund and if, pursuant to Section 351 of the Code, that Fund would have a basis in the Deposit Securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial share ownership for purposes of the 80% determination.

OTHER INFORMATION

The Funds are not sponsored, endorsed, sold or promoted by the Exchange. The Exchange makes no representation or warranty, express or implied, to the owners of Shares or any member of the public regarding the advisability of investing in securities generally or in the Funds particularly or the ability of the Funds to achieve their objective. The Exchange has no obligation or liability in connection with the administration, marketing or trading of the Funds.

For purposes of the 1940 Act, the Funds are registered investment companies, and the acquisition of Shares by other registered investment companies and companies relying on exemption from registration as investment companies under Section 3(c)(1) or 3(c)(7) of the 1940 Act is subject to the restrictions of Section 12(d)(1) of the 1940 Act, except as permitted by an exemptive order that permits registered investment companies to invest in the Funds beyond those limitations.

Shareholder inquiries may be made by writing to the Trust, c/o IndexIQ Advisors LLC, 51 Madison Avenue, New York, New York 10010.

FINANCIAL STATEMENTS

The audited financial statements and the notes thereto for the IQ MacKay Municipal Insured ETF, IQ MacKay Municipal Intermediate ETF and IQ Ultra Short Duration ETF in the Funds’ Annual Report to Shareholders for their fiscal year ended April 30, 2020 (“Annual Report”) are incorporated by reference into this SAI. No other parts of the Annual Report are incorporated by reference herein. The financial statements included in the Annual Report have been audited by PricewaterhouseCoopers LLP, the Funds’ independent registered public accounting firm, whose report thereon also appears in the Annual Report and is incorporated by reference into this SAI. Such financial statements have been incorporated by reference herein in reliance upon such report given upon their authority as experts in accounting and auditing.
A copy of the Annual Report for the fiscal period ended April 30, 2020, may be obtained upon request and without charge by calling the Advisor, writing the Trust or visiting the Funds’ website as follows:

By telephone: 1-888-474-7725

By mail: IndexIQ ETF Trust
c/o IndexIQ 51 Madison Avenue
New York, NY 10010

On the Internet: nylinvestments.com/etfs

As of the date of this Statement of Additional Information, IQ MacKay Municipal Short Duration ETF had not yet commenced operations.
APPENDIX A

SUMMARY OF PROXY VOTING POLICY AND PROCEDURES

The Advisor has delegated proxy-voting authority to the Fund's Subadvisor, MacKay Shields. A summary of MacKay Shields' proxy voting policies and procedures is provided below.

MacKay Shields LLC

MacKay Shields LLC has adopted proxy-voting policies and procedures pursuant to where clients have delegated proxy-voting authority to MacKay Shields, all proxies are voted in the best interest of such clients without regard to the interests of MacKay Shields or related parties. When a client retains MacKay Shields, the firm generally determines through its investment management agreement whether it will vote proxies on behalf of that client. Currently, MacKay Shields uses ISS as its third-party proxy voting service provider. If the client appoints MacKay Shields as its proxy-voting agent, the client will also instruct MacKay Shields to vote its proxies in accordance with custom guidelines provided by the client, MacKay Shields' Standard Guidelines (currently the same as the ISS standard guidelines), or in the case of a Taft-Hartley client, in accordance with the ISS Taft-Hartley guidelines. MacKay Shields informs the client's custodian to send all proxies to ISS. MacKay Shields then informs ISS that the client has appointed MacKay Shields as its agent and instructs ISS as to which guidelines to follow.

Once the appropriate guidelines have been established, each proxy must be voted in accordance with those guidelines unless a MacKay Shields portfolio manager believes that it is in the best interest of the client(s) to vote otherwise. In those cases, the portfolio manager must complete a form describing the reasons for departing from the guidelines and disclosing any facts that might suggest there is a conflict. The portfolio manager submits the form to MacKay Shields' Compliance Department for review. If the Compliance Department determines that no “conflict” exists, then the dissent will be approved and ISS will be informed of how to vote. All dissenting votes are presented to MacKay Shields' Compliance Committee. If MacKay Shields’ General Counsel or CCO determines that a conflict exists, the matter will immediately be referred to MacKay Shields’ Compliance Committee for consideration. In accordance with Firm procedures in this area, the committee members will consider the matter and resolve the conflict as deemed appropriate under the circumstances. Please see the “Guidelines Examples” section above for examples of MacKay Shields’ guidelines with respect to certain typical proxy votes.

NYL Investors LLC

NYL Investors has adopted Proxy Voting Policy and Procedures (the “Policy”) to provide guidance to its employees in discharging its proxy voting duty, and to ensure that, where proxy-voting authority has been granted to NYL Investors, proxies are voted in the “best interests” of its clients without regard to the interests of NYL Investors or related parties. For purposes of the Policy, the “best interests of clients” means, unless otherwise specified by the client, the clients' best economic interests over the long term – that is, the common interest that all clients share in seeing the value of a common investment increase over time.

To assist in researching and voting proxies, NYL Investors utilizes the research and implementation services of a third-party proxy service provider, ISS. NYL Investors Proxy Voting Committee is responsible for general oversight of NYL Investors Proxy Policy and Procedures and voting activity. ISS will research each proxy proposal and provide a recommendation based on the application of its research to the applicable proxy voting guidelines. All proxy voting guidelines are reviewed annually by the Proxy Voting Committee.

NYL Investors reviews all recommendations and permits ISS to cast votes in accordance with its recommendations, unless otherwise instructed by the NYL Investors portfolio manager. The portfolio manager may override the ISS recommendation only if it is in the best interest of the client to do so and after completing and executing a “Proxy Vote Override Form.” The form requires the portfolio manager to set forth the reason for such override and identify any potential material conflict of interest. The form is then submitted to Compliance for a determination as to whether a material conflict of interest exists between NYL Investors or any of its affiliates and the client and on whose behalf the proxy is to be voted. If Compliance determines that there is no potential material conflict, the portfolio manager may override the recommendation and vote the proxy issue as he/she determines is in the best interest of clients. If Compliance determines that there exists or may exist a material conflict, it will refer the issue to the Proxy Voting Committee for consideration. The Proxy Voting Committee determines whether to permit or deny the override of the recommendation, or whether to take other action, such as delegating the proxy vote to an independent third party or obtaining voting instructions from clients. NYL Investors will not abstain from voting any proxy for purposes of avoiding a conflict.
