Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

- 14** Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ► NYLI CBRE Global Infrastructure Megatrends Term Fund distributed monthly dividends to shareholders during its fiscal year ended May 31, 2024. A portion of these distributions was in excess of its current and accumulated earnings and profits (E&P). The affected distributions were paid to shareholders from 1/1/2024 - 5/31/2024 as shown in the attachment.
- 15** Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ► The portion of the distribution which is a nontaxable return of capital should reduce the basis of shares in the hands of a US taxpayer to the extent of the shareholders adjusted basis. To the extent the return of capital exceeds the shareholders adjusted basis the distribution will be taxed as a capital gain to the shareholder. See the attachment for applicable share amounts.
- 16** Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► At the close of the fund's fiscal year on 5/31/2024, the fund's current & accumulated E&P was calculated under IRC Section 312 as modified by section 852(c) for a Regulated Investment Company (RIC) and the regulations thereunder. The amount of E&P was compared to the amount of the fund's fiscal year distributions. Distributions in excess of E&P were characterized as return of capital and should be applied as a reduction in each shareholder's tax basis in the applicable shares. See the attachment for applicable share amounts.
